P. N. Sinha,1982 **Gautama** N.S. Junankar,2016-01-01 In this study of the Nyaya Philosophy as propounded by Gautama and explained by Vatsyayana and Uddyotakara the author has examined the empirical foundations of its theory of cognition and proof and the validity of the conclusions based on them The analysis reveals that the Nyaya theory does not warrant the nature career and destiny of the self atman The conceptual framework rests upon the questionable assumption that not only is the experience of the expert apta incorrigible but his communication of that experience is authentic The framework can only be understood in its social context The author maintains that Indian religious and philosophical thought must be judged not only in the light of criteria generally accepted in these fields but also in the broad perspective of the social and intellectual background of the thinkers usually regarded as risis beyond the pale of society The study is both a challenge to the traditional presentation of the Indian cultural heritage and a constructive hypothesis for further research and reappraisal on new lines *A Supplementary Catalogue of Sanskrit, Pali, and Prakrit Books in the Library of the British Museum Acquired During the Years 1892-1928* British Museum.
