Political Parties In South Asia:

Political Parties in South Asia Subrata Mitra, 2004-08-30 Political parties are recognized as a highly important instrument for the functioning of democratic politics. They are essential for state formation and the intermediation between the state and society. This book is a pioneering attempt to discuss and analyze the complex variations of the party landscape in South Asia. It pays special attention to the evaluation of the role of political parties in the creation of multicultural pluralist and democratic societies. The contributions to this volume come from indigenous authors who bear the necessary contextual knowledge needed to analyze the political parties in South Asia. This work helps explain why analytical concepts can provide explanations in some areas of this subject but fail in others. It also argues that the political parties in South Asia should not be assessed only through criteria taken from western experience. The material in this volume is sure to inform academic debate.

Parties and Political Change in South Asia James Chiriyankandath, 2016-04-14 Over the past seven decades and more political parties have become an essential feature of the political landscape of the South Asian subcontinent serving both as a conduit and product of the tumultuous change the region has experienced. Yet they have not been the focus of sustained scholarly attention. This collection focuses on different aspects of how major parties have been agents of and subject to change in three South Asian states: India, Pakistan, and Sri Lanka, examining some of the apparent paradoxes of politics in the subcontinent and covering issues such as gender, religion, patronage, clientelism, political recruitment, and democratic regression. Recurring themes are the importance of personalities and the corresponding neglect of institutionalisation and the lack of pluralism in intraparty affairs, factors that render parties and political systems vulnerable to degeneration. This book was published as a special issue of *Commonwealth and Comparative Politics*.

Political Parties in South Asia: the Challenge of Change K.C. Suri, 2007

Political Party Systems and Democratic Development in East and Southeast Asia Wolfgang Sachsenröder, Ulrike E. Frings, 2018-08-16 First published in 1998, this is the second of two volumes which will be of great value to scholars and students of politics in East and Southeast Asia. A rich, readable reference tool, they offer extensive surveys of the history, structure, culture, legal context, and financing, as well as the progress, travails, and prospects of political parties and electoral systems in 13 countries. The excellent introduction and the detailed country case studies demonstrate the wide range of political experiences in Asia. Rather than affirm the thesis of a common set of Asian values hostile to democracy, they show that in much of East and Southeast Asia, people want the political choice and accountability that come from free and fair electoral competition with open, effective political parties.

Understanding Governance in South Asia Adluri Subramanyam Raju, 2020-09-30 The concept of good governance in South Asia poses a challenge at the implementation level, mainly due to ethnocentricity, regional disparities, division between poor and rich, and rural and urban division among the people. Concepts such as decentralization, citizen engagement, lean public service, privatization, autonomy, public-private partnership may work well in developed countries but may not produce the same

results in the region where the majority of poor people expect their government to fulfill their basic needs Governance in South Asia needs to be reformed to ensure that poverty can be reduced if not completely eradicated Poor governance and the various means by which governance has fallen short has led to lack of development and continuance of poverty in South Asian societies South Asian countries have more or less similar objectives structures value systems cultures and standards of governance despite different forms of government The colonial legacy of British administrative system had its impact on centralization Secrecy elitism rigidity and social isolation is common to all South Asian countries The post colonial administrative system is built upon pre colonial administrative traditions throughout the region These countries can learn from each other s experiences They need to develop an indigenous model to find pragmatic solutions to the challenges of good governance This book argues that countries in South Asian can achieve good results through good governance if they develop and adopt an indigenous model rather than simply borrowing models and ideas from the West Please note This title is co published with Manohar Publishers New Delhi Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka
