Public Sculpture Of Glasgow:

Public Sculpture of Glasgow Raymond McKenzie, 2002 Elizabeth A Kaye specializes in communications as part of her coaching and consulting practice She has edited Requirements for Certification since the 2000 01 edition **Public Sculpture of Staffordshire and the Black Country** George Thomas Noszlopy, Fiona Waterhouse, 2005-01-01 The Black Country is an area historically known as the cradle of the Industrial Revolution a thriving region built around deep coal seams conjuring up images of fiery red furnaces by night and black sooty citadels by day Yet today the resource rich region also features many striking public sculptures This volume provides a comprehensive catalog to all of the historic sculptures and public monuments in Staffordshire and the Black Country George Noszlopy and Fiona Waterhouse catalog each individual sculpture in detail including information about the sculptor the sculpture s historical and artistic significance the commissioning agent and the date of installation The volume also features 350 black and white photographs that document the diverse and rich beauty of the region s public monuments The ninth volume in the widely acclaimed award winning Public Sculpture of Britain series Public Sculpture of Staffordshire and the Black Country is an invaluable resource for British historians art scholars and travelers alike **Glasgow Public Sculpture Recording Project** Glasgow School of Art, Glasgow Public Sculpture Recording Project, National Recording Project (Public Monuments and Sculpture Association), 1995 *Walking Through Glasgow's Industrial Past* Ian R Mitchell, 2024-08-19 Walking Through Glasgow s Industrial Past sets out to retrieve the hidden architectural cultural and historical riches of some of Glasgow s industrial and working class districts Many who enjoy the fruits of Glasgow s recent gentrification may be surprised and delighted by the gems which Ian Mitchell has uncovered beyond the usual haunts *Liverpool University Press Autumn 2010 Catalogue* ,

The Spaces of Justice Peter Robson, Johnny Rodger, 2017-08-13 This book looks at the architecture of the courts in Scotland and the importance of these civic spaces Given the importance of courts to the legal experience it starts by exploring why scholars have been so reticent in examining spaces in which the administration of justice takes place It notes the major changes already unfolding in Scotland and puts these into a historical and cultural context The authors trace the emergence of the notion of the dedicated courtroom space in 19th century Scotland and the ways in which the courtroom setting affected the exercise of power through law They show what factors led to the adoption of different architectural styles They examine the changes in the legal political and social world which drove such changes and how these changed in the 20th and 21st centuries They also examine the symbolic functions of courts both internally and externally They note the changes in the decision makers and their goals in the 21st century and how this will lead to a very different kind of courtroom in the near future They examine the wider factors affecting the process of litigation and trends in dispute resolution They conclude that the goals of transparency and civil dignity have serious implications for the kinds of spaces which will serve as halls of justice in the future Since these are driven it seems by financial imperatives it does not bode well

for the retention of civic pride and community which the courts of justice might be said to embody Public Sculpture of Greater Manchester Terry Wyke, Harry Cocks, 2004-01-01 Public Sculpture of Greater Manchester is a complete catalog and illustrated guide to all of Greater Manchester's public sculptures and monuments Manchester historian Terry Wyke provides detailed individual entries for each sculpture featured including information about the artist and the commissioning agent date of installation and the sculpture's historical and artistic significance More than 350 black and white photographs reveal the diversity and beauty of Manchester's many public monuments The eighth volume in Liverpool University Press's highly acclaimed and prize winning Public Sculpture of Britain series Public Sculpture of Greater Manchester will be an incomparable resource for both armchair and actual travelers as well as for English historians and art scholars alike These are excellent volumes in an outstanding and continuing series one of the most original and important such projects under way They set an international standard for the recording and publication of public sculpture Judging panel 2003 William MB Berger Prize for British Art History on the Public Sculpture of Britain series **Public Sculpture of Edinburgh: Volume 2** Ray McKenzie, 2018 These are the twentieth and twenty first volumes in the Public Sculpture of Britain series the ambitious collaboration between Liverpool University Press and the Public Monuments and Sculpture Association that will eventually document the outdoor sculptural heritage of the whole of the UK Public sculpture is defined in this context as any work of three dimensional art located in an unregulated public space typically consisting of free standing commemorative monuments architectural carvings and statues attached to buildings and contemporary site specific interventions A subject that was until recently overlooked as a matter of marginal relevance to the history of art public sculpture has been shown through the Liverpool University Press series to offer a range of important insights into the built environment enriching our understanding of architecture and city planning and raising many challenging issues relating to the development of society as a whole This is nowhere better illustrated than in Edinburgh where the richness of its history as a capital city and the dramatic power of its urban topography have combined to create a uniquely fertile breeding ground for public sculpture of every kind With the coverage divided between two companion volumes the study begins appropriately with the historic Old Town and the various suburbs extending from it to the south **People, places and identities** Alan Kidd, Melanie Tebbutt, 2017-03-24 This book of essays on British social and cultural history since the eighteenth century draws attention to relatively neglected topics including personal and collective identities the meanings of place especially locality and the significance of cultures of association Themes range from rural England in the eighteenth century to the urbanizing society of the nineteenth century from the Home Front in the First World War to voluntary action in the welfare state from post 1945 civic culture to the advice columns of teenage magazines and the national press Various aspects of civil society connect these themes notably the different identities of place locality and association that emerged with the growth of an urban environment during the nineteenth century and the shifting landscape of twentieth century public discourse on social welfare

and personal morality It is of interest that several of the essays take Manchester or Lancashire as their focus *The Life and Legend of James Watt* David Philip Miller, 2019-04-18 The Life and Legend of James Watt offers a deeper understanding of the work and character of the great eighteenth century engineer Stripping away layers of legend built over generations David Philip Miller finds behind the heroic engineer a conflicted man often diffident about his achievements but also ruthless in protecting his inventions and ideas and determined in pursuit of money and fame A skilled and creative engineer Watt was also a compulsive experimentalist drawn to natural philosophical inquiry and a chemistry of heat underlay much of his work including his steam engineering But Watt pursued the business of natural philosophy in a way characteristic of his roots in the Scottish improving tradition that was in tension with Enlightenment sensibilities As Miller demonstrates Watt's accomplishments relied heavily on collaborations not always acknowledged with business partners employees philosophical friends and not least his wives children and wider family The legend created in his later years and afterlife claimed too much of nineteenth century technology for Watt but that legend was and remains a powerful cultural force "Transculturation in British Art, 1770-1930" Julie F. Codell, 2017-07-05 Examining colonial art through the lens of transculturation the essays in this collection assess painting sculpture photography illustration and architecture from 1770 to 1930 to map these art works complex and unresolved meanings illuminated by the concept of transculturation Authors explore works in which transculturation itself was being defined formed negotiated and represented in the British Empire and in countries subject to British influence the Congo Free State Japan Turkey through cross cultural encounters of two kinds works created in the colonies subject over time to colonial and to postcolonial spectators receptions and copies or multiples of works that traveled across space located in several colonies or between a colony and the metropole thus subject to multiple cultural interpretations Politics personified Henry Miller, 2016-05-16 The remarkable popularity of political likenesses in the Victorian period is the central theme of this book which explores how politicians and publishers exploited new visual technology to appeal to a broad public The first study of the role of commercial imagery in nineteenth century politics Politics personified shows how visual images projected a favourable public image of politics and politicians Drawing on a vast and diverse range of sources this book highlights how and why politics was visualised Beginning with an examination of the visual culture of reform the book goes on to study how Liberals Conservatives and Radicals used portraiture to connect with supporters the role of group portraiture and representations of Victorian MPs The final part of the book examines how major politicians including Palmerston Gladstone and Disraeli interacted with mass commercial imagery The book will appeal to a broad range of scholars and students across political social and cultural history art history and visual studies cultural and media studies and literature *Literature and Union* Gerard Carruthers, Colin Kidd, 2018-01-06 Literature and Union opens up a new front in interdisciplinary literary studies There has been a great deal of academic work both in the Scottish context and more broadly on the relationship between literature and nationhood yet almost none on the relationship between

literature and unions This volume introduces the insights of the new British history into mainstream Scottish literary scholarship The contributors who are from all shades of the political spectrum will interrogate from various angles the assumption of a binary opposition between organic Scottish values and those supposedly imposed by an overbearing imperial England Viewing Scottish literature as a clash between Scottish and English identities loses sight of the internal Scottish political and religious divisions which far more than issues of nationhood and union were the primary sources of conflict in Scottish culture for most of the period of Union until at least the early twentieth century The aim of the volume is to reconstruct the story of Scottish literature along lines which are more historically persuasive than those of the prevailing grand narratives in the field The chapters fall into three groups 1 those which highlight canonical moments in Scottish literary Unionism John Bull Rule Britannia Humphry Clinker Ivanhoe and England their England 2 those which investigate key themes and problems including the Unions of 1603 and 1707 Scottish Augustanism the Burns Cult Whig Presbyterian and sentimental Jacobite literatures and 3 comparative pieces on European and Anglo Irish phenomena *Public Sculpture of South London* Terry Cavanagh, 2007 In this tenth volume in the Public Sculpture of Britain series the varied and important though often little known public sculpture of the Boroughs of Wandsworth Lambeth Southwark and Lewisham is illustrated and catalogued in detail **BOOK JACKET** **Public Sculpture of Glasgow**, 2002 "William Reid Dick, Sculptor" Dennis Wardleworth, 2017-07-05 William Reid Dick 1878 1961 was one of a generation of British sculptors air brushed out of art history by the Modernist critics of the late twentieth century This long overdue monograph adds to the recent revival of interest in this group of forgotten sculptors by describing the life and work of arguably the leading figure of the group in unprecedented depth The facts of Reid Dick's life and his most important works are presented against a backdrop of the historical social and aesthetic changes taking place during his lifetime Dennis Wardleworth elucidates why Reid Dick's reputation plummeted so quickly and why his position in the history of British art deserves to be restored This study draws upon a wealth of previously unpublished material including over 2000 letters and press cuttings and photographs in the Tate Archive as well as letters and photographs held by Reid Dick's family It traces the sculptor's story from his birth in the Gorbals in Glasgow to his election to the Royal Academy and knighting by George V to the decline of his career and his late life connection with American millionaire and art collector Huntington Hartford The first monograph on Reid Dick since 1945 the book also includes images of over 40 of his works and a listing of over 200 works identified by the author *The Sculpture Journal*, 2003 [The Architecture of Empire in Modern Europe](#) Miel Groten, 2025-10-01 Empires stretched around the world but also made their presence felt in architecture and urban landscapes The Architecture of Empire in Modern Europe traces the entanglement of the European built environment with overseas imperialism in the nineteenth and twentieth centuries As part of imperial networks between metropole and colonies in cities as diverse as Glasgow Hamburg or Paris numerous new buildings were erected such as factories mission houses offices and museums These sites developed into

the physical manifestations of imperial networks As Europeans designed used and portrayed them these buildings became meaningful imperial places that conveyed the power relations of empire and Eurocentric self images Engaging with recent debates about colonial history and heritage this book combines a variety of sources an interdisciplinary approach and an international scope to produce a cultural history of European imperial architecture across borders *Public Sculpture of Edinburgh: Volume 1* Raymond McKenzie,2018 Volume 2 extends the coverage to the First New Town and its environs and beyond that to the former independent burgh of Leith It provides a comprehensive and detailed account of the entire spectrum of public sculptures to be found in these parts of the city including free standing commemorative monuments architectural carvings and contemporary site specific interventions Based on extensive new research the text is structured as a catalogue raisonne with each entry comprising a detailed description of the work an account of how it came to be commissioned and an analysis of its cultural significance There are also separate appendices dealing with important works that have been lost or destroyed minor works and sculptural coats of arms The study of public sculpture is now recognised as offering a range of new insights into the development of the urban realm Those insights are brought together here to provide a comprehensive resource for historians architects urban planners and conservators and a narrative history that will be of interest to all who care about Edinburgh and wish to celebrate its status as a UNESCO World Heritage Site Immortal Memory Christopher A. Whatley,2016-09-19 Robert Burns was by far and away the most iconic figure in nineteenth century Scotland Multiple editions of his works poured incessantly from the presses Unprecedentedly large crowds gathered to commemorate him at huge festivals and at the unveiling of memorials His work was at the heart of the palpable rise of Scottish ness that swept Scotland from the 1840s through to the First World War including demands for Home Rule If Walter Scott imagined Scotland Burns shaped it He gave ordinary Scots in what had been one of the most socially uneven societies in Europe a sense of self worth and dignity and underpinned demands for political and social justice In this major new book Christopher Whatley describes the several contests there were to own and mould Burns from Tories through Radicals to middle class urban improvers But the Kirk condemned Burns as the Antichrist deplored the Burns cult Burnomania a slur on a nation that prided itself on its strict Presbyterian inheritance The result is a fascinating picture of the role Burns played after his death in shaping multiple facets of Scottish society
