Serious Flyfishing:

Serious Flyfishing John M. Waite, 1997 In a unique fly fishing book Waite angles for what ultimate truths about fly fishing he can catch He lands some but perhaps the most interesting is that there are no ultimate truths about the sport For instance tackle manufacturers all seem to go off on their own while one says a rod is a number 7 another says its apparent number 7 is something different Consider the facts that not all number 12 hooks are the same that lines all differ and that the 250 rod you just purchased in a high end fly fishing store costs 79 99 at the local sporting goods discounter and you get an idea of Waite s method throughout His unscientific survey of fly fishers is pretty interesting too if only to find out how everybody else fishes You wind up hoping Waite will some day expand his scope to survey fishers for largemouth bass muskies walleye panfish and just about any other critter that swims in fresh or saltwater Now that would be interesting Jon Kartman 290p Serious Flyfishing John M. Waite, 1997 An experienced flyfisher discusses the flyfishing economy the business of production pricing and promotions followed by chapters on leaders lines rods rod line balance reels knots hooks flies and fly casting The survey shows responses to 124 questions which reveal demographic data about the respondees as well as their flyfishing knowledge and opinions Published by The Serious Fisherman PO Box 14225 Spokane WA 99214 0225 Annotation copyrighted by Book News Inc Portland OR
