**Acting Companies and their Plays in Shakespeare's London** Siobhan Keenan, 2014-05-08 Acting Companies and their Plays in Shakespeare s London explores the intimate and dynamic relationship between acting companies and playwrights in this seminal era in English theatre history Siobhan Keenan s analysis includes chapters on the traditions and workings of contemporary acting companies playwriting practices stages and staging audiences and patrons each illustrated with detailed case studies of individual acting companies and their plays including troupes such as Lady Elizabeth s players Beeston s Boys and the King s Men and works by Shakespeare Jonson Middleton Brome and Heywood We are accustomed to focusing on individual playwrights Acting Companies and their Plays in Shakespeare s London makes the case that we also need to think about the companies for which dramatists wrote and with whose members they collaborated if we wish to better understand the dramas of the English Renaissance stage

**Shakespeare and the Making of Theatre** Paul Edmondson, Bridget Escolme, 2012-10-18 A highly engaging text that approaches Shakespeare as a maker of theatre as well as a writer of literature Leading performance critics dismantle Shakespeare s texts identifying theatrical cues in ways which develop understanding of the underlying theatricality of Shakespeare s plays and stimulate further performances *Playwright, Space and Place in Early Modern Performance* Tim Fitzpatrick, 2016-04-22 Analyzing Elizabethan and Jacobean playtexts for their spatial implications this innovative study

discloses the extent to which the resources and constraints of public playhouse buildings affected the construction of the fictional worlds of early modern plays The study argues that playwrights were writing with foresight inscribing the constraints and resources of the stages into their texts It goes further to posit that Shakespeare and his playwright contemporaries adhered to a set of generic conventions rather than specific local company practices about how space and place were to be related in performance the playwrights constituted thus an overarching virtual company producing playtexts that shared features across the acting companies and playhouses By clarifying a sixteenth to seventeenth century conception of theatrical place Tim Fitzpatrick adds a new layer of meaning to our understanding of the plays His approach adds a new dimension to these particular documents which though many of them are considered of great literary worth were not originally generated for any other reason than to be performed within a specific performance context The fact that the playwrights were aware of the features of this performance tradition makes their texts a potential mine of performance information and casts light back on the texts themselves if some of their meanings are spatial these will have been missed by purely literary tools of analysis

The Masks of Anthony and Cleopatra Marvin Rosenberg, Mary Rosenberg, 2006 In his analysis Marvin Rosenberg sets out to steer a path between the extremes of Rome and Egypt and all they stand for and to explore the relentless to and back confrontation of their different sets of values which leads ultimately to destruction

Stages and Playgoers Janet Hill, 2002 Stages and Playgoers demonstrates the long vital tradition of dialogue between stage and audience from medieval through Tudor to Jacobean drama Janet Hill offers new insights into techniques of addressing playgoers from the stage and how they might have operated under particular staging conditions Hill calls this dialogue open address a term that takes in a range of speeches often called asides monologues and soliloquies She argues that open address is a strategy that challenges playgoers asking for answers that lie outside the stage in the playgoer playhouse world
