Shakespeare's Southampton Patron Of Virgi:

Celtic Shakespeare Rory Loughnane, 2016-04-08 Drawing together some of the leading academics in the field of Shakespeare studies this volume examines the commonalities and differences in addressing a notionally Celtic Shakespeare Celtic contexts have been established for many of Shakespeare's plays and there has been interest too in the ways in which Irish Scottish and Welsh critics editors and translators have reimagined Shakespeare claiming connecting with and correcting him This collection fills a major gap in literary criticism by bringing together the best scholarship on the individual nations of Ireland Scotland and Wales in a way that emphasizes cultural crossovers and crucibles of conflict The volume is divided into three chronologically ordered sections Tudor Reflections Stuart Revisions and Celtic Afterlives This division of essays directs attention to Shakespeare's transformed treatment of national identity in plays written respectively in the reigns of Elizabeth and James but also takes account of later regional receptions and the cultural impact of the playwright's dramatic works The first two sections contain fresh readings of a number of the individual plays and pay particular attention to the ways in which Shakespeare attends to contemporary understandings of national identity in the light of recent history Juxtaposing this material with subsequent critical receptions of Shakespeare's works from Milton to Shaw this volume addresses a significant critical lacuna in Shakespearean criticism Rather than reading these plays from a solitary national perspective the essays in this volume cohere in a wide ranging treatment of Shakespeare's direct and oblique references to the archipelago and the problematic issue of national identity

poem is inspired by and based on stories found in the Metamorphoses a narrative poem by the Latin poet Ovid 43 BC AD 17 18 Ovid's much briefer version of the tale occurs in book ten of his Metamorphoses It differs greatly from Shakespeare's version Ovid's Venus goes hunting with Adonis to please him but otherwise is uninterested in the outdoors She wears tucked up robes worries about her complexion and particularly hates dangerous wild animals Shakespeare's Venus is a bit like a wild animal herself she apparently goes naked and is not interested in hunting but only in making love to Adonis offering her body to him in graphically explicit terms In the end she insists that the boar's killing of Adonis happened accidentally as the animal impressed by the young hunter's beauty gored him while trying to kiss him Venus's behavior seems to reflect Shakespeare's own feelings of empathy about animals his poem devotes many stanzas to descriptions of a stallion's feelings as he pursues a sexually attractive mare and to a hare's feelings as hounds run it down which is inconsistent with Venus's request that he hunt only harmless animals like hares Other stories in Ovid's work are to a lesser degree considered sources the tales of Salmacis and Hermaphroditus Narcissus and Pygmalion
