David M. Bergeron,2020-10-14 In *Shakespeare through Letters* David M Bergeron analyzes the letters found within Shakespeare's comedies histories and tragedies arguing that the letters offer the principal intertextual element in the plays as text in their own right Bergeron posits that Shakespeare's theater itself exists at the intersection of oral and textual culture which the letters also exhibit as they represent writing reading and interpretation in a way that audiences would be familiar with in contrast with the illustrious culture of kings queens and warriors This book demonstrates that the letters profound or perfunctory constitute texts that warrant interpretation even as they remain material stage props impacting narrative development revealing character and enhancing the play's tone Scholars of literature theater and history will find this book particularly useful *Literature in the Making* Nancy Glazener,2015-10-15 In the eighteenth century literature meant learned writings by the twentieth century literature had come to be identified with imaginative aesthetically significant works and academic literary studies had developed special protocols for interpreting and valuing literary texts *Literature in the Making* examines what happened in between how literature came to be more precisely specified and valued how it was organized into genres canons and national traditions and how it became the basis for departments of modern languages and literatures in research universities Modern literature the version of literature familiar today was an international invention but it was forged when literary cultures traditions and publishing industries were mainly organized nationally *Literature in the Making* examines modern literature's coalescence and institutionalization in the United States considered as an instructive instance of a phenomenon that was going global Since modern literature initially offered a way to formulate the value of legacy texts by authors such as Homer Cervantes and Shakespeare however the development of literature and literary culture in the U S was fundamentally transnational *Literature in the Making* argues that Shakespeare studies one of the richest tracts of nineteenth century U S literary culture was a key domain in which literature came to be valued both for fuelling modern projects and for safeguarding values and practices that modernity put at risk a foundational paradox that continues to shape literary studies and literary culture Bringing together the histories of literature's competing conceptualizations its print infrastructure its changing status in higher education and its life in public culture during the long nineteenth century *Literature in the Making* offers a robust account of how and why literature mattered then and matters now By highlighting the lively collaboration between academics and non academics that prevailed before the ascendancy of the research university starkly divided experts from amateurs *Literature in the Making* also opens new possibilities for

envisioning how academics might partner with the reading public      **The Patriarchy of Shakespeare's Comedies** Marilyn L. Williamson,1986      *The Re-Imagined Text* Jean I. Marsden,2014-07-15 Shakespeare's plays were not always the inviolable texts they are almost universally considered to be today The Restoration and eighteenth century committed what many critics view as one of the most subversive acts in literary history the rewriting and restructuring of Shakespeare's plays Many of us are familiar with Nahum Tate's audacious adaptation of King Lear with its resoundingly happy ending but Tate was only one of a score of playwrights who adapted Shakespeare's plays Between 1660 and 1777 more than fifty adaptations appeared in print and on the stage works in which playwrights augmented substantially cut or completely rewrote the original plays The plays were staged with new characters new scenes new endings and underlying all this novelty new words Why did this happen And why in the later eighteenth century did it stop These questions have serious implications regarding both the aesthetics of the literary text and its treatment for the adaptations manifest the period's perceptions of Shakespeare As such they demonstrate an important evolution in the definition of poetic language and in the idea of what constitutes a literary work In *The Re-Imagined Text* Jean I Marsden examines both the adaptations and the network of literary theory that surrounds them thereby exploring the problems of textual sanctity and of the author's relationship to the text As she demonstrates Shakespeare's works and English literature in general came to be defined by their words rather than by the plots and morality on which the older aesthetic theory focused a clear step toward our modern concern for the word and its varying levels of signification      Reader's Guide to Periodical Literature Supplement ,1929      Shakespeare Studies, Vol. XLIV (44) James R.
