Londhe,2017-06-13 Having applied the standards of modern critical theory it may sound fruitless to account for biographical details of writer in interpreting his work as the biographical details either hold no importance or have nothing to do with the work of art in the sense that once a work of art is born it loses its connection with the creator Moreover even in the moment of creation the author remains detached from his creation However there are some exceptions to this It has been observed that the biographical details are of immense help in partly making sense of what the concerned author has encoded These details can be correlated to his writing In the case of some writers their life has a special relation with what they write how they led their life what inspiration they sought what influences they received and imbibed in their personality what experiences they lived with and what events and occasions they confronted All these partly go into the making of a literary personality *Yoga Journal* ,2003-01 For more than 30 years Yoga Journal has been helping readers achieve the balance and well being they seek in their everyday lives With every issue Yoga Journal strives to inform and empower readers to make lifestyle choices that are healthy for their bodies and minds We are dedicated to providing in depth thoughtful editorial on topics such as yoga food nutrition fitness wellness travel and fashion and beauty *Yoga Journal* ,2002-03 For more than 30 years Yoga Journal has been helping readers achieve the balance and well being they seek in their
