The Medicine Wheel shows us how to both live and transform ourselves while remaining in balance with the natural world. Indigenous peoples in the Americas with whom these Wheels originate have a profound understanding of what it means to be human that has been largely lost in the modern world. This book is not just another self help guide but rather an exploration of an ancient map that shows how human beings and the world work. A Wheel is very simple and experiential, dividing the world into the four basic elements of Fire, Water, Earth, and Air, and on that basis it creates a deep and transformative psychology, a subtle and practical philosophy, and a ceremonial form through which the community can celebrate the sacredness of life.

From her childhood in a war-torn country to her initiation with the shamans of the Andes and her life today as a teacher and medicine woman, Marcela's story offers a flesh and bones context for each step on the archetypal journey to Self.
