Zoltán Biedermann,Alan Strathern,2017-06-07 The peoples of Sri Lanka have participated in far flung trading networks religious formations and Asian and European empires for millennia This interdisciplinary volume sets out to draw Sri Lanka into the field of Asian and Global History by showing how the latest wave of scholarship has explored the island as a crossroads a place defined by its openness to movement across the Indian Ocean Experts in the history archaeology literature and art of the island from c 500 BCE to c 1850 CE use Lankan material to explore a number of pressing scholarly debates They address these matters from their varied disciplinary perspectives and diverse array of sources critically assessing concepts such as ethnicity cosmopolitanism and localisation and elucidating the subtle ways in which the foreign may be resisted and embraced at the same time The individual chapters and the volume as a whole are a welcome addition to the history and historiography of Sri Lanka as well as studies of the Indian Ocean region kingship colonialism imperialism and early modernity Shambala Edgar V. Winans,2017-07-24 Excerpt from *Shambala The Constitution of a Traditional State* Let us dwell for a moment on the implications of the word must in the preceding paragraph for in that monosyllable lies a great deal of implicit theory as I have noted elsewhere 2 Man is committed to social existence by the nature of his physical needs but this commitment places each individual in the dilemma of self interest versus social demand Society must provide orderly processes for the regular resolution of this in herent con ict if the society is to continue The must therefore has no reference to moral requisites nor to inevitability but rather to survival If the society is to continue as a society then it must have certain organizational features The precise nature of these features will vary from one society to another that is these functions may be performed by variant structural elements But the functions must be performed or the society will cease to exist This is true for all societies however primitive or deve loped it is also true for societies of a particular character and the range of organizational choices are therewith narrowed We shall see that the special demands of statehood make certain organizational features necessary if the state is to exist as an entity About the Publisher Forgotten Books publishes hundreds

The Making of a Mixed Language Maarten Mous,2003-12-19 The Mbugu or Ma language Tanzania is one of the few genuine mixed languages reputedly combining Bantu grammar with Cushitic vocabulary In fact the people speak two languages one mixed and one closely related to the Bantu language Pare This book is the first comprehensive description of these languages It shows that these two languages share one grammar while their lexicon is parallel In the distant past the people shifted from a Cushitic to a Bantu language and in the process rebuilt a language of their own that expresses their separate ethnic identity in a Bantu environment This linguistic history is explained in the context of the intricate history of the people The discussion of the processes that were involved in the formation of Ma a Mbugu is extremely relevant for both creole studies and for contact linguistics in general

Jimma Abba Jifar, an Oromo Monarchy Herbert S. Lewis,2001 The Kingdom of Jimma Abba Jifar established ca 1830 was the largest and most powerful of five monarchies formed by the Oromo peoples in south western Ethiopia Based on extensive fieldwork in the area this work presents a study of the history and organisation of Jimma under its most powerful ruler Abba Jifar II 1878 1932 stressing the political history and structure of Jimma with a comparative perspective which notes similarities and differences in processes and structures to monarchical systems elsewhere in Africa and the world

Magic, Divination and Witchcraft Among the Barotse of Northern Rhodesia Barrie Reynolds, **On Kings** Marshall Sahlins,David Graeber,2017-12-15 In anthropology as much as in popular imagination kings are figures of fascination and intrigue heroes or tyrants in ways presidents and prime ministers can never be This collection of essays by two of the world s most distinguished anthropologists David Graeber and Marshall Sahlins explores what kingship actually is historically and anthropologically As they show kings are symbols for more than just sovereignty indeed the study of kingship offers a unique window into fundamental dilemmas concerning the very nature of power meaning and the human condition Reflecting on issues such as temporality alterity and utopia not to mention the divine the strange the numinous and the bestial Graeber and Sahlins explore the role of kings as they have existed around the world from the BaKongo to the Aztec to the Shilluk and beyond Richly delivered with the wit and sharp analysis characteristic of Graeber and Sahlins this book opens up new avenues for the anthropological study of this fascinating and ubiquitous political figure

Post-Colonial Nations in Historical and Cultural Context Dmitri M. Bondarenko, 2023-05-30 Using historical and anthropological analysis in Post Colonial Nations in Historical and Cultural Context Dmitri M Bondarenko examines nation building in Tanzania Uganda and Zambia He examines the nation and state as concepts and how these are changing globally particularly in regard to the idea that the fundamental characteristic of a nation is a culturally homogeneous community This feature became a cornerstone of the concept of the nation at its formation in the West by the end of the eighteenth century but post colonial migration flows from the Global South to the Global North are increasing multi culturalism in the North In contrast liberated states of Asia and Africa have been multi cultural from earlier on as they inherited the colonial borders in which typically many peoples were united Throughout the book Bondarenko argues that this history of multi culturalism is an advantage to development in the Global South and that it is necessary to depart from the classical Western concept of the nation to simultaneously support citizen unity while preserving cultural diversity

Directory, Foreign Area Fellows Foreign Area Fellowship Program, 1973 Peasant Intellectuals Steven M. Feierman, 1990-11-14 Scholars who study peasant society now realize that peasants are not passive but quite capable of acting in their own interests But do coherent political ideas emerge within peasant society or do peasants act in a world where elites define political issues *Peasant Intellectuals* is based on ethnographic research begun in 1966 and includes interviews with hundreds of people from all levels of Tanzanian society Steven Feierman provides the history of the struggles to define the most basic issues of public political discourse in the Shambaa speaking region of Tanzania Feierman also shows that peasant society contains a rich body of alternative sources of political language from which future debates will be shaped
