Shame And The Self:

Shame and the Self Francis J. Broucek, 1991-04-26 In this ambitious new work Frank Broucek explores the affect of shame its functions and its relationship to sexuality self and others With a special focus on the relationship between shame and self objectification he proposes an innovative new theory that links shame to our sense of self from early development through maturity In exploring this theme Broucek a psychoanalytically trained psychiatrist breaks new ground in understanding the development of the self establishing a perspective on narcissism that differs markedly from traditional psychoanalytic concepts An illuminating overview of the modern literature precedes a provocative analysis of the role of shame in the formation of the self Here Broucek identifies the three major sources of shame the infant's experiences of interpersonal inefficacy self objectification resulting in a kind of self alienation or primary dissociation and the experience of being unloved rejected or scapegoated by important others In the course of development these vectors cause the self's overinvestment in the idealized self image and a devaluation of the actual self an event explored in depth in the chapter on narcissism Broucek also addresses the role of shame in psychoanalysis and in society The neglect of this emotion in psychoanalytic theory and technique the author contends results from a critical lack of understanding of shame and its effect potentially adverse on the practice of psychotherapy Finally Broucek's analysis of widespread shamelessness in modern times logically extends the ideas presented earlier Maintaining a critical balance in its coverage and interpretation **SHAME AND THE SELF** marks a significant contribution to the understanding of the nature of shame and its role in our psychic life As such it is essential reading for all practicing psychiatrists psychologists social workers and other mental health practitioners

Shame Michael Lewis, 1995-08-08 Shame the quintessential human emotion received little attention during the years in which the central forces believed to be motivating us were identified as primitive instincts like sex and aggression Now redressing the balance there is an explosion of interest in the self conscious emotion Much of our psychic lives involve the negotiation of shame asserts Michael Lewis internationally known developmental and clinical psychologist Shame is normal not pathological though opposite reactions to shame underlie many conflicts among individuals and groups and some styles of handling shame are clearly maladaptive Illustrating his argument with examples from everyday life Lewis draws on his own pathbreaking studies and the theory and research of many others to construct the first comprehensive and empirically based account of emotional development focused on shame In this paperback edition Michael Lewis adds a compelling new chapter on stigma in which he details the process in which stigmatization produces shame

Shame and the Origins of Self-Esteem Mario Jacoby, 2016-08-12 Shame is one of our most central feelings and a universal human characteristic Why do we experience it For what purpose How can we cope with excessive feelings of shame In this elegant exposition informed by many years of helping people to understand feelings of shame leading Jungian analyst Mario Jacoby provided a comprehensive exploration of the many aspects of shame and showed how it occupies a central place in our emotional

experience Jacoby demonstrated that a lack of self esteem is often at the root of excessive shame and as well as providing practical examples of how therapy can help he drew upon a wealth of historical and cultural scholarship to show how important shame is for us in both its individual and social aspects This Classic Edition includes a new foreword by Marco Della Chiesa

Shame Joseph Burgo, 2018-11-06 An intimate look at the full spectrum of shame often masked by addiction promiscuity perfectionism self loathing or narcissism that offers a new positive route forward Encounters with embarrassment guilt self consciousness remorse etc are an unavoidable part of everyday life and they sometimes have lessons to teach us about our goals and values about the person we expect ourselves to be In contrast to the prevailing cultural view of shame as a uniformly toxic influence Shame is a book that approaches the subject of shame as an entire family of emotions which share a painful awareness of self Challenging widely accepted views within the self esteem movement author Joseph Burgo argues that self esteem does NOT thrive in the soil of non stop praise and encouragement but rather depends upon setting and meeting goals living up to the expectations we hold for ourselves and finally sharing our joy in achievement with the people who matter most to us Along the way listening to and learning from our encounters with shame will go further than affirmations and positive self talk in helping us to build authentic self esteem Richly illustrated with clinical stories from Burgo's 35 years in private practice Shame also describes the myriad ways that unacknowledged shame often hides behind a broad spectrum of mental disorders including social anxiety narcissism addiction and masochism

Building Self-Esteem Joseph Burgo, 2020-05 Rather than viewing shame as the opposite of self esteem this book shows that building authentic self esteem depends upon the ability to listen to shame and learn from it

Shame and Pride Donald L. Nathanson, 1994 This is a revolutionary book about the nature of emotion about the way emotions are triggered in our private moments in our relations with others and by our biology Drawing on every theme of the modern life sciences Dr Nathanson shows how the nine basic affects interest excitement enjoyment joy surprise startle fear terror distress anguish anger rage disgust and shame humiliation not only determine how we feel but shape our very sense of self For too long there has been a battle between those who explain emotional discomfort on the basis of lived experience and those who blame chemistry As Dr Nathanson shows chemicals and illnesses can affect our mood just as surely as an uncomfortable memory or a stern rebuke He presents a completely new understanding of all emotion providing the first link between the exciting affect theory of Silvan Tomkins and the entire world of biology medicine psychology psychotherapy religion and the social sciences Shame is the least understood of the painful emotions although it affects every phase of life We have all been made to feel foolish just at the moment we most wanted to appear wonderful we have all been rebuffed by those we wished to court Not one of us looks exactly as we might wish Shame haunts our every dream of love and influences how we experience ourselves as sexual beings We react to shame by withdrawing by making painful alliances with those who humiliate us by calling attention to what brings us pride or by attacking whoever has made us feel inferior The comedian as Nathanson

shows in his discussion of Buddy Hackett makes us laugh at what we try to keep hidden transforming shame into acceptance and even pride This book explains everything that can possibly make us proud or ashamed All are in this book nobody who reads it will be quite the same again Shame and Pride: Affect, Sex, and the Birth of the Self Donald L.
