modernizing urban society Illustrating its multilayered and complex relations with the bourgeoisie the industrial proletariat and the foreign and domestic political authorities Martin demonstrates how these factors led to the Green Gang's absorption into the corporate state system after 1932 *The Politics of Controlling Organized Crime in Greater China* Sonny Shiu-Hing Lo, 2015-12-14 In China the central government has the political will to control organized crime which is seen as a national security threat The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments The development of prostitution underground gambling and narcotics production has become so serious that the central government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People's Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly **Killer High** Peter Andreas, 2020 Introduction How drugs made war and war made drugs Drunk on the front Where there's smoke there's war Caffeinated conflict Opium empire and Geopolitics Speed warfare Cocaine wars Conclusion The drugged battlefields of the 21st century *The Compelling Ideal* Jan Kiely, 2014-05-27 In this groundbreaking volume based on extensive research in Chinese archives and libraries Jan Kiely explores the pre Communist origins of the process of systematic thought reform or reformation ganhua that evolved into a key component of Mao Zedong's revolutionary restructuring of Chinese society Focusing on ganhua as it was employed in China's prison system Kiely's thought provoking work brings the history of this critical phenomenon to life through the stories of individuals who conceptualized implemented and experienced it and he details how these techniques were subsequently adapted for broader social and political use **News under Fire** Shuge Wei, 2017-09-05 News under Fire China's Propaganda against Japan in the English Language Press 1928-1941 is the first comprehensive study of China's efforts to establish an effective international propaganda system during the Sino Japanese crisis It explores how the weak Nationalist government managed to use its limited resources to compete with Japan in the international press By retrieving the long neglected history of English language papers published in the treaty ports Shuge Wei reveals a multilayered and often chaotic English language media environment in China and demonstrates its vital importance in defending China's sovereignty Chinese bilingual elites

played an important role in linking the party led propaganda system with the treaty port press Yet the development of propaganda institution did not foster the realization of individual ideals As the Sino Japanese crisis deepened the war machine absorbed treaty port journalists into the militarized propaganda system and dashed their hopes of maintaining a liberal information order A superbly researched and well nuanced account of an overlooked topic nationalist China s propaganda system and the multiple ways in which it intersected with the treaty port foreign language press of the time Combining a wealth of archival and newspaper sources it is destined to be on the must read list of all who are interested in state propaganda and news dissemination in the Republican period Julia C Strauss professor of Chinese politics SOAS University of London An absorbing and well sourced study of KMT propaganda efforts to convince the United States to side with China rather than Japan in WWII The study shows how the KMT facing a massive power asymmetry compared to its Japanese opponent managed to effectively use the soft power of foreign propaganda Rudolf G Wagner senior professor of Chinese studies Cluster of Excellence Asia and Europe Heidelberg University Germany *Failed States and Fragile Societies* Ingo Tauschweizer, Steven M. Miner, 2014-06-01 Since the end of the Cold War a new dynamic has arisen within the international system one that does not conform to established notions of the state s monopoly on war In this changing environment the global community must decide how to respond to the challenges posed to the state by military threats political and economic decline and social fragmentation This insightful work considers the phenomenon of state failure and asks how the international community might better detect signs of state decay at an early stage and devise legally and politically legitimate responses This collection of essays brings military and social historians into conversation with political and social scientists and former military officers In case studies from the former Yugoslavia Somalia Iraq and Colombia the distinguished contributors argue that early intervention to stabilize social economic and political systems offers the greatest promise whereas military intervention at a later stage is both costlier and less likely to succeed Contributors David Carment Yiagadeesen Samy David Curp Jonathan House James Carter Vanda Felbab Brown Robert Rotberg Ken Menkhaus

Urbanizing China in War and Peace Toby Lincoln, 2015-05-31 Urbanizing China in War and Peace rewrites the history of rural urban relations in the first half of the twentieth century by arguing that urbanization is a total societal transformation and as important a factor as revolution nationalism or modernity in the history of modern China Linking the global and the local in space and time China s urbanization was not only driven by industrial capitalism and the expansion of the state but also shaped how these forces influenced daily life in the city and the countryside Although the conflict that beset China after the Japanese invasion in 1937 affected the development of cities towns and villages it did not derail previous changes To truly understand how China has emerged as the world s largest urban society we must consider such continuities across the first half of the twentieth century during periods of war as well as peace The book focuses on Wuxi a city that lies a hundred miles to the west of Shanghai In the early twentieth century local industrialists were responsible for it quickly becoming the largest

industrial city in China outside treaty ports They built factories roads and other infrastructure outside the old city walls and in surrounding towns and villages Chapters examine the county s transformation as recorded in guidebooks and travel magazines of the time and the role of the state in the early 1920s and into the Nanjing Decade when new administrative laws led to the continued expansion of the city under both municipal and county officials They explore the revival of the silk industry during the Japanese occupation and the industry s role in driving urbanization as well as efforts by Chinese leaders to carry out prewar development plans despite lockdowns and qingxiang clean the countryside campaigns In the midst of the barbed wire and watch towers plans to shape the built environment in Wuxi County and the region as a whole persisted and were carried out Ambitious and well researched *Urbanizing China in War and Peace* will appeal to scholars and students of Chinese urban history the Anti Japanese War of Resistance and the Republican period Its engagement with issues of urbanization in general will interest urban historians of other times and places *Hygienic Modernity* Ruth

Rogaski,2004-11-29 Placing meanings of health and disease at the center of modern Chinese consciousness Ruth Rogaski reveals how hygiene became a crucial element in the formulation of Chinese modernity in the nineteenth and twentieth centuries Rogaski focuses on multiple manifestations across time of a single Chinese concept weisheng which has been rendered into English as hygiene sanitary health or public health as it emerged in the complex treaty port environment of Tianjin Before the late nineteenth century weisheng was associated with diverse regimens of diet meditation and self medication *Hygienic Modernity* reveals how meanings of weisheng with the arrival of violent imperialism shifted from Chinese cosmology to encompass such ideas as national sovereignty laboratory knowledge the cleanliness of bodies and the fitness of races categories in which the Chinese were often deemed lacking by foreign observers and Chinese elites alike

The Age of Irreverence Christopher Rea,2025-02-25 The Age of Irreverence tells the story of why China s entry into the modern age was not just traumatic but uproarious As the Qing dynasty slumped toward extinction prominent writers compiled jokes into collections they called histories of laughter In the first years of the Republic novelists essayists and illustrators alike used humorous allegories to make veiled critiques of the new government But again and again political and cultural discussion erupted into

invective as critics gleefully jeered and derided rivals in public Farceurs drew followings in the popular press promoting a culture of practical joking and buffoonery Eventually these various expressions of hilarity proved so offensive to high brow writers that they launched a concerted campaign to transform the tone of public discourse hoping to displace the old forms of mirth with a new one they called youmo humor Christopher Rea argues that this period from the 1890s to the 1930s transformed how Chinese people thought and talked about what is funny Focusing on five cultural expressions of laughter jokes play mockery farce and humor he reveals the textures of comedy that were a part of everyday life during modern China s first age of irreverence This new history of laughter not only offers an unprecedented and up close look at a neglected facet of Chinese cultural modernity but also reveals its lasting legacy in the Chinese language of the comic today and its implications for our understanding of humor as a part of human culture
