The Volunteer Revolution Bill Hybels, 2009-05-18 Pastor Bill Hybels believes that there is a new reality in America The church has entered an era of growth and unprecedented spiritual opportunity to share the Gospel yet at the same time we face a shrinking economy and a world in crisis This poses a great resource challenge for the church In order to reach out to people who are spiritually hungry the church needs more people to be equipped to serve others Hybels passionately believes the key to the future of the church is the equation $X \text{ paid staff} + Y \text{ volunteers} = Z \text{ bearing much fruit for God s glory}$ Churches cannot afford to continue hiring more and more staff with limited budgets The key to resourcing the church is what Hybels calls the Y factor The Y factor is the pool of volunteers in every church The great need of the church is to grow the church s volunteer base through the equipping ministry of church staffs As churches recover the message of Ephesians 4:11-12 to equip God s people for works of service they will launch a Volunteer Revolution People are just waiting to discover the gifts and passions that God has given them to serve others and then be invited to use those gifts and passions through the local church in order to advance the kingdom of God on Earth Hybels believes that every church staff should be helping people discover their spiritual gifts passions and place of service in order to meet the growing needs in our churches and world Hybels makes a clarion call to move beyond volunteer retention to volunteer acquisition By attracting connecting training and sustaining volunteers churches will mobilize people into places of service that will bring new meaning to their lives and understand why God put them on planet Earth Hybels also outlines

simple pure and uncomplicated The contributors to this book contend although in widely differing ways and not always approvingly that our culture is indeed still pervaded in this postmodern moment of the very late twentieth century by the Romantic conception of childhood which first emerged two hundred years ago In the wake of the French Revolution and the Industrial Revolution western Europe experienced another fin de siècle characterized by overwhelming material and institutional change and instability By historicizing the specific political social and economic conflicts at work within the notion of Romantic childhood the essayists in *Literature and the Child* show us how little these forces have changed over time and how enriching and empowering they can still be for children and their parents In the first section *Romanticism Continued and Contested* Alan Richardson and Mitzi Myers question the origins and ends of Romantic childhood In *Romantic Ironies Postmodern Texts* Dieter Petzold Richard Flynn and James McGavran argue that postmodern texts for both children and adults perpetuate the Romantic complexities of childhood Next in *The Commerce of Children's Books* Anne Lundin and Paula Connolly study the production and marketing of children's classics Finally in *Romantic Ideas in Cultural Confrontations* William Scheick and Teya Rosenberg investigate interactions of Romantic myths with those of other cultural systems
