The Shaping of Art History: Meditations on a Discipline , **The Shaping of Art History** Kathryn Brush,2010-06-24 The Shaping of Art History examines art history's formation in the German academy in the late nineteenth century Focusing on the work of Wilhelm Voge and Adolph Goldschmidt two influential scholars of medieval art Kathryn Brush analyzes their methods and particularly those scholarly projects that were critical to the development of their approaches This is the first work to consider how the study of the pioneering scholarship in the field of medieval art is critical to an understanding of the formulation of art historical method as a whole The Shaping of Persian Art Yuka Kadoi,Iván Szántó,2014-07-18 While the impact of the Persian style is undeniably reflected in most aspects of the art and architecture of Islamic Central Asia this Perso Central Asian connection was chiefly formed and articulated by the Euro American movement of collecting and interpreting the art and material culture of the Persian Islamic world in modern times This had an enormous impact on the formation of scholarship and connoisseurship in Persian art for instance with an attempt to define the characteristics of how the Islamic art of Iran and Central Asia should be viewed and displayed at museums and how these subjects should be researched in academia This important historical fact which has attracted scholarly interest only in recent years should be treated as a serious subject of research accepting that the abstract image of Persian art was not a pure creation of Persian civilization but that it can be the manifestation of particular historical times and charismatic individuals Attention should therefore be given to various factors that resulted in the shaping of Persian imagery across the globe not only in terms of national ideologies but also within the context of several protagonists such as scholars collectors and dealers as well as of the objects themselves This volume brings together Islamic Iranian and Central Asian art experts from diverse disciplinary and professional backgrounds and intends to offer a novel insight into what is collectively known as Persian art *African Cultures, Visual Arts, and the Museum* Tobias Döring,2002 From the contents Christine MATZKE Comrades in arts and arms stories of wars and watercolours from Eritrea Sabine MARSCHALL Positioning the other reception and interpretation of contemporary black South African artists Kristine ROOME The art of liberating voices contemporary South African art exhibited in New York Jonathan ZILBERG Shona sculpture and documenta 2002 reflections on exclusions **Private Collecting, Exhibitions, and the Shaping of Art History in London** Stacey J. Liberalism, Nationalism and Design Reform in the Habsburg Empire Matthew Rampley,Markian Prokopovych,Nóra Veszprémi,2020-01-20 Liberalism Nationalism and Design Reform in the Habsburg Empire is a study of museums of design and applied arts in Austria Hungary from 1864 to 1914 The Museum for Art and Industry now the Museum of Applied Arts as well as its design school occupies a prominent place in the study The book also gives equal attention to museums of design and applied arts in cities elsewhere in the Empire such as Budapest Prague Cracow Brno and Zagreb The book is shaped by two broad concerns the role of liberalism as a political cultural and economic ideology motivating the museums foundation

and their engagement with the politics of imperial national and regional identity of the late Habsburg Empire This book will be of interest for scholars of art history museum studies design history and European history *Writing the Lives of Painters* Karen Junod, 2011-01-27 *Writing the Lives of Painters* explores the development of artists' biographies in eighteenth and early nineteenth century Britain During this period artists gradually distanced themselves from artisans and began to be recognised for their imaginative and intellectual skills The development of the art market and the burgeoning of an exhibition culture as well as the foundation of the Royal Academy of Arts in 1768 all contributed to redefining the rank of artists in society This social redefinition of the status of artists in Britain was shaped by a thriving print culture Contemporary artists were discussed in a wide range of literary forms including exhibition reviews art critical pamphlets and journalistic gossip columns Biographical accounts of modern artists emerged in a dialogue with these other types of writing This book is an account of a new literary genre tracing its emergence in the cultural context of the late eighteenth and early nineteenth centuries It considers artistic biography as a malleable generic framework for investigation Indeed while the lives of painters in Britain did not completely abandon traditional tropes the genre significantly widened its scope and created new individual and social narratives that reflected and accommodated the needs and desires of new reading audiences *Writing the Lives of Painters* also argues that the proliferation of a myriad biographical forms mirrored the privileging of artistic originality and difference within an art world that had yet to generate a coherent British School of painting Finally by focusing on the emergence of individual biographies of British artists the book examines how and why the art historiographic model established by Giorgio Vasari was gradually dismantled in the hands of British biographers during the Romantic period

The Transformation of Athens Robin Osborne, 2018-02-06 How remarkable changes in ancient Greek pottery reveal the transformation of classical Greek culture Why did soldiers stop fighting athletes stop competing and lovers stop having graphic sex in classical Greek art The scenes depicted on Athenian pottery of the mid fifth century BC are very different from those of the late sixth century Did Greek potters have a different world to see or did they come to see the world differently In this lavishly illustrated and engagingly written book Robin Osborne argues that these remarkable changes are the best evidence for the shifting nature of classical Greek culture Osborne examines the thousands of surviving Athenian red figure pots painted between 520 and 440 BC and describes the changing depictions of soldiers and athletes drinking parties and religious occasions sexual relations and scenes of daily life He shows that it was not changes in each activity that determined how the world was shown but changes in values and aesthetics By demonstrating that changes in artistic style involve choices about what aspects of the world we decide to represent as well as how to represent them this book rewrites the history of Greek art By showing that Greeks came to see the world differently over the span of less than a century it reassesses the history of classical Greece and of Athenian democracy And by questioning whether art reflects or produces social and political change it provokes a fresh examination of the role of images in an ever evolving world Japanese

Hermeneutics Michael F. Marra, 2002-01-01 Japanese Hermeneutics provides a forum for the most current international debates on the role played by interpretative models in the articulation of cultural discourses on Japan. It presents the thinking of esteemed Western philosophers, aestheticians, and art and literary historians and introduces to English reading audiences some of Japan's most distinguished scholars whose work has received limited or no exposure in the United States. In the first part, Hermeneutics and Japan contributors examine the difficulties inherent in articulating otherness without falling into the trap of essentialization and while relying on Western epistemology for explanation and interpretation. In the second part, Japan's Aesthetic Hermeneutics, they explore the role of aesthetics in shaping discourses on art and nature in Japan. The essays in the final section of the book, Japan's Literary Hermeneutics, rethink the notion of Japanese literature in light of recent findings on the ideological implications of canon formations and transformations within Japan's prominent literary circles.

The Ashgate Research Companion to Dutch Art of the Seventeenth Century Wayne Franits, 2017-07-05

Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public's ongoing fascination with some of its most beloved painters, until now there has been no comprehensive study assessing the state of research in the field. As the first study of its kind, this book is a useful resource for scholars and advanced students of seventeenth-century Dutch art and also serves as a springboard for further research. Its 19 chapters, divided into three sections and written by a team of internationally renowned art historians, address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently.

The Art and Archaeology of Human Engagements with Birds of Prey Robert J. Wallis, 2023-10-05

Of all avian groups, birds of prey in particular have long been a prominent subject of fascination in many human societies. This book demonstrates that the art and materiality of human engagements with raptors has been significant through deep time and across the world from earliest prehistory to Indigenous thinking in the present day. Drawing on a wide range of global case studies and a plurality of complementary perspectives, it explores the varied and fluid dynamics between humans and birds of prey as evidenced in this diverse art historical and archaeological record. From their depictions as powerful beings in visual art and their important roles in Indigenous mythologies to the significance of their body parts as active agents in religious rituals, the intentional deposition of their faunal remains, and the display of their preserved bodies in museums, there is no doubt that birds of prey have been figures of great import for the shaping of human society and culture. However, several of the chapters in this volume are particularly concerned with looking beyond the culture/nature dichotomy and human-centred accounts to explore perspectival and other post-humanist thinking on human raptor ontologies and epistemologies. The contributors recognize that human raptor relationships are not driven exclusively by human intentionality and that when these species meet, they relate to and become with one another. This raptor-with-human-focused approach allows for a productive re-framing of

questions about human raptor interstices enables fresh thinking about established evidence and offers signposts for present and future intra actions with birds of prey Wagstaff: Before and After Mapplethorpe Philip Gfelter, 2014-10-27 Winner of the Arts Club of Washington Marfield Prize A New York Times Book Review Editors Choice Selection This admiring and absorbing biography Deborah Solomon The New York Times Book Review charts Sam Wagstaff's incalculable influence on contemporary art photography and gay identity A legendary curator collector and patron of the arts Sam Wagstaff was a figure who stood at the intersection of gay life and the art world and brought glamour and daring to both Andrew Solomon Now in Philip Gfelter's groundbreaking biography he emerges as a cultural visionary Gfelter documents the influence of the man who although known today primarily as the mentor and lover of Robert Mapplethorpe almost invented the idea of photography as art Edmund White Wagstaff Before and After Mapplethorpe braids together Wagstaff's personal transformation from closeted society bachelor to a rebellious curator with a broader portrait of the tumultuous social cultural and sexual upheavals of the 1960s 70s and 80s creating a definitive portrait of a man and his era *Forgotten Painters* Felicity Moreau, AI, 2025-02-25 *Forgotten Painters* shines a light on talented artists unfairly excluded from mainstream art history challenging the established artistic canon The book reveals systemic biases like gender discrimination and socioeconomic factors that have skewed perceptions of artistic merit By exploring the lives and works of these lost artists the book advocates for a more inclusive art history enriching our understanding of art's relationship to society The book begins by examining how artistic canons are formed and then delves into biographical accounts of selected painters across various periods and locations Archival research including letters and contemporary reviews combined with analysis of the artists surviving artworks supports the book's interdisciplinary approach *Forgotten Painters* connects to broader discussions about power representation and the construction of historical narratives calling for a reevaluation of how we evaluate art Ultimately the book challenges readers to consider the criteria used to determine artistic significance It emphasizes the importance of a critical and equitable approach in art education museum curation and broader efforts to promote diversity in the arts **Comics Versus Art** Bart Beaty, 2012-07-17 On the surface the relationship between comics and the high arts once seemed simple comic books and strips could be mined for inspiration but were not themselves considered legitimate art objects Though this traditional distinction has begun to erode the worlds of comics and art continue to occupy vastly different social spaces *Comics Versus Art* examines the relationship between comics and the most important institutions of the art world including museums auction houses and the art press Bart Beaty's analysis centres around two questions why were comics excluded from the history of art for most of the twentieth century and what does it mean that comics production is now more closely aligned with the art world Approaching this relationship for the first time through the lens of the sociology of culture Beaty advances a completely novel approach to the comics form Robert Mapplethorpe Paul Martineau, Britt Salvesen, 2016-03-15 The legacy of Robert Mapplethorpe 1946 1989 is rich and complicated triggering controversy polarizing
