Shaping Your Child's Personality:

Shaping Your Child's Personality B. R. Hergenhahn, 1972 **Feeling Good** Menelaos Apostolou, 2017-07-05 Every day people make life choices that ideally increase their evolutionary fitness the chances of survival and successful reproduction and lead to positive feelings of fulfillment accomplishment and happiness Sometimes however individuals experience quite the opposite feelings of sadness caused by fitness decreasing choices Fortunately many advancements in evolutionary theory and evolutionary psychology have increased humans capacity as a species to address the question of how to live a life characterized by more positive than negative feelings *Feeling Good* reveals anyone can learn how to trigger mechanisms that generate positive feelings and increase positive fitness levels The key is to employ an evolutionary perspective on how mental mechanisms generate feelings in relation to our life choices From an insightfully evolutionary perspective *Feeling Good* examines how to find and keep a mate make good career decisions build a solid social network deal with death and negative influences and make life choices in general that can lead to better and more sustainable mental and physical health Menelaos Apostolou deepens our understanding of human nature by exploring what is good and evil in an evolutionary sense as well as in relation to religious dogmas and whether making fitness increasing life choices can lead to more good or more evil acts

Your Baby's Brain Gail Gross, 2023-08-15 Winner of the 2019 National Parenting Product Award, Ranked 1 by BookAuthority for 2019 Best New Parenting Books. This will give your child the greatest opportunity to reach her fullest potential, both emotionally and intellectually. Goldie Hawn Academy Award and Golden Globe-winning actress and founder of the Hawn Foundation. A must-read for all parents. Arianna Huffington, founder, you are at the helm guiding their course. With this book, you can learn how to harness your power as a parent. Use science to guide and nurture your child so they can achieve all of their dreams. Shape your child's brain in early years and set a healthy foundation that will enrich the rest of their lives. Avoid parenting pitfalls that will set your child's intellectual and social development back by years. The truth is, nature and nurture are in a delicate dance; if one goes too fast, the other one falls. Science tells us that early childhood experiences have the capacity to structure and alter the brain. That means you didn't just supply your child's DNA; you're still shaping it. And it's only by wielding this power that your child will activate their full potential. You are truly a gene therapist, manipulating and guiding your child's genetic makeup based on the experiences you create for them. Contrary to what modern parenting trends have told us, parenting is much simpler than we dared to imagine. Great parenting comes down to one mission: to be prepped and present for the windows of your child's development so that you can take full advantage of these formative periods and help your child become a smart, successful, self-sufficient adult. It doesn't require formal training or a fancy degree; all it takes is getting involved. Once parents learn how to flip the right gene switches, they can expand the limits of their child's potential and lay the emotional and intellectual groundwork that allows them to seize opportunities for success fearlessly, naturally, and enthusiastically. With a PhD in education and a second in psychology and forty years of

experience as an educator Dr Gross combines an understanding of childhood development with practical and realistic tools to teach parents how to best take advantage of their child s developmental windows Your Baby s Brain translates the results from scientific studies about expanding consciousness and performance into day to day interaction between parents and children
