Shaping Identity In Canadian Society:

Shaping Identity in Canadian Society Jack Haas, William Shaffir, 1978-01-01 *Canadian Women Shaping Diasporic Religious Identities* Becky R. Lee, Terry Tak-ling Woo, 2016-01-01 This collection of essays explores how women from a variety of religious and cultural communities have contributed to the richly textured pluralistic society of Canada. Focusing on women's religiosity, it examines the ways in which they have carried and conserved and brought forward and transformed their cultures old and new in modern Canada. Each essay explores the ways in which the religiosities of women serve as locations for both the assertion and the refashioning of individual and communal identity in transcultural contexts. Three shared assumptions guide these essays: religion plays a dynamic role in the shaping and reshaping of social cultures; women are active participants in their transmission and their transformation; and a focus on women's activities within their religious traditions often informal and unofficial provides new perspectives on the intersection of religion, gender, and transnationalism. Since the first European migrations, Canada has been shaped by immigrant communities as they negotiated the tension between preserving their religious and cultural traditions and embracing the new opportunities in their adopted homeland. Viewing those interactions through the lens of women's religiosity, the essays in this collection model an innovative approach and provide new perspectives for students and researchers of Canadian Studies, Religious Studies, and Women's Studies.

Sociology of Work in Canada Audrey Wipper, 1994-01-15 A revised edition of *Sociology of Work*, this edition features the sociological relationships between English and French Canadians, taking into account the rapidity of social change that has occurred in Quebec and throughout Canada. *Canada's Prime Ministers and the Shaping of a National Identity* Raymond B. Blake, 2024-06-15 Since Confederation, Canadian prime ministers have consciously constructed the national story. Each created shared narratives, formulating and reformulating a series of unifying national ideas that served to keep this geographically large, ethnically diverse, and regionalized nation together. This book is about those narratives and stories. Focusing on the post-Second World War period, Raymond B. Blake shows how, regardless of political stripe, prime ministers worked to build national unity, forged a citizenship based on inclusion, and defined a place for Canada in the world. They created for citizens an ideal image of what the nation stood for and the path it should follow. They told a national story of Canada as a modern, progressive, liberal state with a strong commitment to inclusion, a deep respect for diversity and difference, and a fundamental belief in universal rights and freedoms. Ultimately, this innovative history provides readers with a new way to see and understand what Canada is and what holds us together as a nation. **Aboriginal Voices and the**

Politics of Representation in Canadian Introductory Sociology Textbooks John Steckley, 2003 The philosophical underpinnings of this textbook make it a most interesting read for scholars of Aboriginal Studies, the social sciences, humanities, and cultural studies, and humanistic curriculum development. John Steckley's familiarity with and respect for the epistemology of the Huron, Mohawk, and Ojibwa peoples enlightens and enables his research. In this book, he provides a

critical framework for assessing Aboriginal content in introductory sociology textbooks He defines what is missing from the seventy seven texts included in his study of the manifestation of cultural hegemony in Canadian sociology textbooks This critique is suitable for students and professors of sociology as Dr Steckley addresses the impact of the ellipses from the textbooks they have traditionally used **Making Sense of the Canadian Charter of Rights and Freedoms** Jonathan L. The European Roots of Canadian Identity Philip Resnick,2005-04-01 What makes Canada a different kind of society from the United States In this book length essay Philip Resnick argues that in more ways than one Canada has been profoundly marked by its European origins This is most apparent where the European historical underpinnings both of English speaking and French speaking Canada are concerned but it is no less true when one examines Canada s multiple national identities robust social programs increasingly secular values and multilateral outlook on international affairs today As the war in Iraq brought home and the 2004 federal election reinforced Canada is a more European type society than is our neighbour to the south This does not come without its own complexities or problems On the contrary there are significant parallels between the ambiguous versions of national identity that one finds in Canada and what one finds on the European continent There are parallels too between the elements of self doubt that characterize Canadians overall when they think about their country and those of Europeans caught up in their own often fractious attempts to forge a more integrated Europe The author argues that Canada needs Europe as an effective counter weight to the influence of the United States He further argues that at a deeper existential level Canadians need relevant European references to better understand what makes them the kind of North Americans that they are
