Sharing The Gift:

Sharing Gifts in the Global Family of Faith Pakisha Tshimika, 2003-06-01 As the center of Christianity has moved south to Africa Asia and Latin America what gifts can churches in different parts of the world share with each other Are churches in Europe and North America willing and able to receive as well as give Who's rich In what Who's needy In what way How do we overcome the real obstacles that obstruct this essential part of being the church My Little Gifts Jo Witek, 2018-09-11 There are many types of gifts You can give a big shiny wrapped gift on Christmas morning but you can also give the gifts of your help or your time You can bake a cake for your parents or share what you learned in school with your little sister You can help a friend unravel a knotty bracelet or smile at a stranger who looks sad With a spirit of generosity you'll find you have many gifts to give to the world and that giving can be even more fulfilling than receiving Featuring a die cut cover and interior flaps throughout My Little Gifts celebrates the gift of giving The Growing Hearts series celebrates the milestones of a toddler's emotional development from conquering fears and expressing feelings to welcoming a new sibling **Handbook for Sharing Your Faith Effectively**, Anthropology and the Economy of Sharing Thomas Widlok, 2016-10-04 This book examines the economy of sharing in a variety of social and political contexts around the world with consideration given to the role of sharing in relation to social order and social change political power group formation individual networks and concepts of personhood Widlok advocates a refreshingly broad comparative approach to our understanding of sharing with a rich range of material from hunter gatherer ethnography alongside debates and empirical illustrations from globalized society helping students to avoid Western economic bias in their thinking Anthropology and the Economy of Sharing also demonstrates that sharing is distinct from gift giving exchange and reciprocity which have become dominant themes in economic anthropology and suggests that a new focus on sharing will have significant repercussions for anthropological theory Breaking new ground in this key topic this volume provides students with a coherent and accessible overview of the economy of sharing from an anthropological perspective *Atlantic Reporter*, 1910 **A Girl Can Do: Recognizing and Representing Girlhood** Tiffany R. Isselhardt, 2022-07-12 How do scholars research and interpret marginalized populations especially those that are seldom recognized as marginalized or whose sources are believed to be rare Combining intersectional feminism and public history methodologies A Girl Can Do Recognizing and Representing Girlhood reflects on how girlhood is found researched and interpreted in museums archives and historic sites Defining girl as self identifying females under the age of 21 A Girl Can Do lays the groundwork for understanding girlhood its constructs and its marginalization while providing faculty students and working professionals with ten case studies on researching and working with girlhood Contributors include archaeologists archivists curators educators and historians who demonstrate how adding a girl studies lens fosters greater inclusivity and diversity in our work Whether studying spatial techniques of marginalization in colonial Peru the daybooks as records of girlhood in late nineteenth century Sweden or collaborating with self identifying

fangirls to produce a pop up exhibition the contributors demonstrate the variety of sources and methods that can be used to interpret this oft overlooked population Throughout A Girl Can Do petitions for collaborative and creative thinking in how we can reframe and reinterpret our sources both traditional and overlooked to shed new light on how girls have contributed to and provide frames of reference for human history and culture

The Inner Level Richard Wilkinson, Kate Pickett, 2019-01-22 A groundbreaking investigation of how inequality infects our minds and gets under our skin Why are people more relaxed and at ease with each other in some countries than others Why do we worry so much about what others think of us and often feel social life is a stressful performance Why is mental illness three times as common in the USA as in Germany Why is the American dream more of a reality in Denmark than the USA What makes child well being so much worse in some countries than others As The Inner Level demonstrates the answer to all these is inequality In The Spirit Level Richard Wilkinson and Kate Pickett put inequality at the center of public debate by showing conclusively that less equal societies fare worse than more equal ones across everything from education to life expectancy The Inner Level now explains how inequality affects us individually altering how we think feel and behave It sets out the overwhelming evidence that material inequities have powerful psychological effects when the gap between rich and poor increases so does the tendency to define and value ourselves and others in terms of superiority and inferiority A deep well of data and analysis is drawn upon to empirically show for example that low social status leads to elevated levels of stress hormones and how rates of anxiety depression and addictions are intimately related to the inequality which makes that status paramount Wilkinson and Pickett describe how these responses to hierarchies evolved and why the impacts of inequality on us are so severe In doing so they challenge the conception that humans are inescapably competitive and self interested They undermine too the idea that inequality is the product of natural differences in individual ability This book draws together many of the most urgent problems facing societies today but it is not just an index of our ills It demonstrates that societies based on fundamental equalities sharing and reciprocity generate much higher levels of well being and lays out the path towards them
