**Name of Sharks** François Sarano, 2023-10-17 Twenty metres below water the oceanographer François Sarano came face to face with a five and a half metre great white shark Seduced by the gentle elegance of this majestic creature Sarano experienced a profound sense of affinity with her as they swam side by side shoulder to shoulder eye to eye cutting a single figure through the ocean depths It was an experience which made him realize the depth of our ignorance of the lives of sharks leading him to become a passionate advocate for their protection Drawing on the latest scientific research on the biology and ethology of sharks and their exceptional characteristics this book aims to break through the barrier of prejudice and to pay homage to their true nature Representing a last vestige of wildness their populations are nevertheless under threat like so many species they have been hunted and exploited by humans Sarano argues for a change of mindset in which we lose ourselves in the world of the other so that each living entity human and non human can take their rightful place in the broader global ecosystem Also available as an audiobook [Underwater Encounters](#) Mary L. *The Empty Ocean* Richard Ellis, 2013-03-19 In *The Empty Ocean* acclaimed author and artist Richard Ellis tells the story of our continued plunder of life in the sea and weighs the chances for its recovery Through fascinating portraits of a wide array of creatures he introduces us to the many forms of sea life that humans have fished hunted and collected over the centuries from charismatic whales and dolphins to the lowly menhaden from sea turtles to cod tuna and coral Rich in history

anecdote and surprising fact Richard Ellis's descriptions bring to life the natural history of the various species the threats they face and the losses they have suffered Killing has occurred on a truly stunning scale with extinction all too often the result leaving a once teeming ocean greatly depleted But the author also finds instances of hope and resilience of species that have begun to make remarkable comebacks when given the opportunity Written with passion and grace and illustrated with Richard Ellis's own drawings The Empty Ocean brings to a wide audience a compelling view of the damage we have caused to life in the sea and what we can do about it *The Publishers Weekly*, 1996 **Wie man mit Haien schwimmt**
