Sharks Of Red Triangle:

Surviving the Shark Jonathan Kathrein, Margaret Kathrein, 2012-07-01 In *Surviving the Shark* Jonathan Kathrein describes his incredible shark attack experience The book covers all aspects of Kathrein s survival beginning with the eerie moments just before the attack when something smashes into Kathrein s hand as he paddles on his board waiting for a wave off Stinson Beach in northern California Realizing it is probably shark and possibly a great white Kathrein tries to paddle away furiously trying to make it toward shore where he sees some of his friends on the beach But it is too late as the great white returns slams into him then grabs his leg and pulls him underwater thrashing him back and forth trying to rip his leg off How Kathrein is able to escape and make his way to shore despite his horrific wounds is nothing short of amazing But that s just the beginning as he now faces months of physical and mental rehabilitation all the while dealing with the constant media attention that the attack has generated Gradually with the help of his family and friends Kathrein makes a recovery Today Kathrein gives lectures on shark conservation as well as on such topics as avoiding shark attacks when you re in the water In this book he not only writes of his ordeal but also delves into shark behavior and explains his desire to spread shark awareness There is also an underlying theme of tremendous familial love and Kathrein s extreme fervor for life 100

The World's Most Dangerous Places Paul Mason, 2006-09-15 Explores world s most dangerous places **The Devil's Teeth** Susan Casey, 2006-05-30 A journalist s obsession brings her to a remote island off the California coast home to the world s most mysterious and fearsome predators and the strange band of surfer scientists who follow them Susan Casey was in her living room when she first saw the great white sharks of the Farallon Islands their dark fins swirling around a small motorboat in a documentary These sharks were the alphas among alphas some longer than twenty feet and there were too

many to count even more incredible this congregation was taking place just twenty seven miles off the coast of San Francisco In a matter of months Casey was being hoisted out of the early winter swells on a crane up a cliff face to the barren surface of Southeast Farallon Island dubbed by sailors in the 1850s the devil s teeth There she joined Scot Anderson and Peter Pyle the two biologists who bunk down during shark season each fall in the island s one habitable building a haunted 135 year old house spackled with lichen and gull guano Two days later she got her first glimpse of the famous terrifying jaws up close and she was instantly hooked her fascination soon yielded to obsession and an invitation to return for a full season But as Casey readied herself for the eight week stint she had no way of preparing for what she would find among the dangerous forgotten islands that have banished every campaign for civilization in the past two hundred years The Devil s Teeth is a vivid dispatch from an otherworldly outpost a story of crossing the boundary between society and an untamed place where humans are neither wanted nor needed
