## **Sharks Still Dont Get Cancer:**

Sharks Still Don't Get Cancer I. William Lane, Linda Comac, 1996 As events and research continue to unfold shark cartilage may prove to be the first major step toward preventing and conquering cancer Benefits of shark cartilage as healing agent **Don't Get Duped** Larry M. Forness, 2013-10-07 In the health and fitness industry truth is a scarce commodity

charges Dr Larry M Forness American consumers exposed to a daily barrage of hype and misinformation about all the products and services that claim to make them healthier and more attractive annually spend forty billion dollars needlessly on a cornucopia of vitamins minerals herbal supplements ergogenic aids fitness equipment and alternative healthcare treatments In this survival manual Forness's goal is to teach consumers the critical tools to make them more knowledgeable about these questionable items The topics covered include the real meaning of scientifically proven methods for quantitatively analyzing such claims as more energy and improved strength alternative healthcare treatments vs hard science fad diets aging remedies abuse of the labels certified and licensed plus an extremely useful glossary explaining commonly used marketing terms To reinforce his message Forness has originated the Bozo du Jour Award bestowed on various individuals groups or companies that have created or participated in misleading advertising or have done something that could harm consumers Before you begin yet another weight loss or fitness program or buy the next healthcare product you owe it to yourself to read what Dr Forness has to say **In the Name of Sharks** François Sarano, 2023-10-17 Twenty

metres below water the oceanographer François Sarano came face to face with a five and a half metre great white shark Seduced by the gentle elegance of this majestic creature Sarano experienced a profound sense of affinity with her as they swam side by side shoulder to shoulder eye to eye cutting a single figure through the ocean depths It was an experience which made him realize the depth of our ignorance of the lives of sharks leading him to become a passionate advocate for their protection Drawing on the latest scientific research on the biology and ethology of sharks and their exceptional characteristics this book aims to break through the barrier of prejudice and to pay homage to their true nature Representing a last vestige of wildness their populations are nevertheless under threat like so many species they have been hunted and exploited by humans Sarano argues for a change of mindset in which we lose ourselves in the world of the other so that each living entity human and non human can take their rightful place in the broader global ecosystem Also available as an audiobook **Bad Medicine** Christopher Wanjek, 2003-04-07 Christopher Wanjek uses a take no prisoners approach in debunking the outrageous nonsense being heaped on a gullible public in the name of science and medicine Wanjek writes with clarity humor and humanity and simultaneously informs and entertains Dr Michael Shermer Publisher Skeptic magazine monthly columnist Scientific American author of Why People Believe Weird Things Prehistoric humans believed cedar ashes and incantations could cure a head injury Ancient Egyptians believed the heart was the center of thought the liver produced blood and the brain cooled the body The ancient Greek physician Hippocrates was a big fan of bloodletting Today we are still

plagued by countless medical myths and misconceptions **Bad Medicine** sets the record straight by debunking widely held yet incorrect notions of how the body works from cold cures to vaccination fears Clear accessible and highly entertaining **Bad Medicine** dispels such medical convictions as You only use 10% of your brain CAT PET and MRI scans all prove that there are no inactive regions of the brain not even during sleep Sitting too close to the TV causes nearsightedness Your mother was wrong Most likely an already nearsighted child sits close to see better Eating junk food will make your face break out Acne is caused by dead skin cells hormones and bacteria not from a pizza with everything on it If you don't dress warmly you'll catch a cold Cold viruses are the true and only cause of colds Protect yourself and the ones you love from bad medicine the brain you save may be your own
