Shattered Eagles Balkan Fragments:

Shattered Eagles, Balkan Fragments Tom Winnifrith, 1995 The collapse of Communism opened up great areas of the Balkans to Western travellers At the same time it exposed old wounds among the different peoples of this troubled area The tragic conflicts in Yugoslavia have brought this home to the rest of the world although the history behind these conflicts is still imperfectly known This book aims to draw attention to those areas of potential discord inhabited by groups scarcely recognized even in their native countries

Nobody's Kingdom T.J. Winnifrith, 2021-05-05 The Roman Byzantine and Ottoman Empires foreign invasion communism and tribal conflict these have been the realities of life in Northern Albania for centuries In this rich and comprehensive history Tom Winnifrith examines the many different elements that have shaped this independent and little known region of the Balkans He explores the fundamental division between the South of Albania and its mysterious romantic North more feudal more tribal more Catholic and more prone to Austrian and Italian influence It is also a region less affected by Greece both ancient and modern and by medieval Byzantium or the Orthodox faith Northern Albania with a terrain and climate much harsher than the south of the country has traditionally had little respect for law and authority while its inhabitants remain in thrall to an ancient honour code the kanun demanding blood feuds and terrible revenge Nobody's Kingdom traces the history of this ruggedly beautiful region frequently disturbed by both invaders and internal strife yet retaining a distinct national identity and character From its origins in the ancient kingdom of Illyria and the Roman province of Illyricum through Byzantine and Ottoman rule the granting of Albanian independence in 1912 the rise and fall of communism to its current fragile democracy Northern Albania can be seen as a cultural crossroads especially remarkable given its mountainous and difficult landscape This book both scholarly and readable is the first modern comprehensive history of Northern Albania and is a timely and accessible introduction to a remote and inaccessible region

Greece and the Balkans Dimitris Tziovas, 2017-07-05 Greece and the Balkans explores the cultural relationships between Greece and other Balkan countries in the domains of language literature thought translation and music and examines issues of identity and perception among the Balkan peoples themselves The essays bring together scholars from across a range of disciplines historians anthropologists linguists and musicologists with specialists on literature translation the history of ideas and religion By raising issues of cultural hybridity and nationalist or pre nationalist interpretations of culture and history it lays claim to a place in the context of studies on nationalism and post colonialism Greece and the Balkans also contributes to a recognition of the Balkans as a site like some postcolonial ones where identities have become fused orientalism and eurocentrism blurred and where religion and modernity clashed and co existed By approaching cultural encounters between Greece and the Balkans from a fresh and informed perspective it makes a substantial contribution to the study of a rather neglected aspect in the history of a region which has suffered in the past from narrow minded nationalistic arguments

The Forgotten Minorities of Eastern Europe Arno Tanner, 2004 The New Macedonian Question J.

Pettifer,1999-05-19 The Macedonian question has been at the heart of the Balkan crisis for most of the twentieth century This important book is the first to bring together international experts to analyse the recent history of Macedonia since the break up of Yugoslavia and includes seminal analyses of key issues in ethnic relations politics and recent history It is edited by James Pettifer a British authority on the southern Balkans and is likely to prove a landmark in its field Cinema of Flames Dina Iordanova,2019-07-25 First study of cinema media and the Balkan wars Wide ranging view of politics and culture of the region The break up of Yugoslavia triggered a truly international film making project Underground Ulysses Gaze Before the Rain Pretty Village Pretty Flame and Welcome to Sarajevo were amongst a host of films created as the conflicts in the region unravelled These conflicts restored the Balkans as a centrepiece of Western imagery and the media especially cinema assumed a leading but ambiguous role in defining it for global consumption through a narrow range of selectively defined images Simultaneously a lot of the high quality cinematic and television work made in the region much of it discussed in this book remains relatively unknown Cinema of Flames attempts to go deeper than the imagery and address some of the general concerns of the cross cultural representation and self representation of the Balkans narrative strategies within the context of Balkan exclusion from the European cultural sphere the cosmopolitan image of Sarejevo diaspora and the representations of villains victims women and ethnic minorities all considered in the general context of Balkan cinema encyclopaedic in scope and brilliance making excellent use of the scholarly literature whilst interweaving analysis of films and other mass media The book will be a superb addition to the literatures on Bosnia and Yugoslavia It will also serve as a standard reference on Balkans film Robert Hayden University of Pittsburgh *Yugoslavia and Its Historians* Norman M. Naimark,Holly Case,2003-02-19 Most of what has been written about the recent history of Yugoslavia and the fierce wars that have plagued that country has been produced by journalists political analysts diplomats human rights organization the United Nations and other government and intergovernmental organizations Professional historians of Yugoslavia however have been strangely silent about the wars and the breakup of the country This book is an effort to end that silence The goal of this volume is to bring together insights from a distinguished group of American and European scholars of Yugoslavia to add depth to our historical understanding of that country s recent struggles The first part of the volume examines the ways in which images of the Yugoslav past have shaped current understandings of the region The second part deals more directly with the events of the recent past and also looks forward to some of the problems and future prospects for Yugoslavia s successor states **Balkan Identities** Maria Todorova,2004-04 Balkan Identities brings together historians anthropologists and literary scholars all working under the shared conviction that the only way to overcome history is to intimately understand it The contributors of Balkan Identities focus on historical memory collective national memory and the political manipulation of national identities They refine our understanding of memory and identity in general and explore and assess the significance of particular manifestations of Balkan national identities and national memories in the region The essays in

Balkan Identities grapple with three major problems the construction of historical memory sites of national memory and the mobilization of national identities While most essays focus on a single country e g Croatia Romania Turkey Cyprus Albania Serbia Bulgaria Greece Macedonia they are in dialogue with each other and share an opposition to rigid isolationist identities Illuminating and challenging Balkan Identities demonstrates the ever changing nature of a troubled and culturally vibrant region

Lakes and Empires in Macedonian History James Pettifer, Miranda Vickers, 2021-08-26 Lakes and Empires in Macedonian History Contesting the Waters tells the story of Psarades a lakeside village in Macedonian Greece on the shores of the Prespa lake This village which is in many ways a completely typical Greek settlement and yet remains unconventional in its way of life embodies the many contradictions of modern history and in exploring its roots James Pettifer and Miranda Vickers skilfully uncover the wider social cultural and political history of this lake region Drawing from oral testimonies and attentive to the construction of national histories this book considers how the development of international borders movement of people and role of national identities within imperial borderlands shaped Macedonia today What is more by centering the lakes and making use of an innovative environmental historical methodology Pettifer and Vickers offer the first environmental history of this multi ethnic borderland region shared by Greece North Macedonia and Albania The result is a nuanced and sophisticated transnational account of Macedonia from prehistory to the 21st century which will be essential reading for all Balkan scholars

A New Science of International Relations Damian Popolo, 2016-03-16 Popolo applies Foucauldian methodology to the understanding of Complexity Science for the purposes of generating new understandings related to International Relations in general and to the Kosovo conflict in particular He provides an epistemic analysis to the history of International Relations theory to reveal its intrinsic modernity highlighting how such modernity derives from a particular understanding of scientific epistemology which is being radically undermined by the emergence of Complexity Science Importantly the book shows how these theoretical issues affect specific understandings of crisis in this case Kosovo leading to specific policy decisions in the real world of international policy making

Historical Dictionary of Albania Robert Elsie, 2010-03-19 Albania is not well known by outsiders it was deliberately closed to the outside world during the communist era Now it has thankfully become free again its borders are open and it can be visited and it is increasingly integrating with the rest of Europe and beyond Unfortunately Albania has had its share of problems in the post communist era it is a land of destitution and despair thanks in part to the Albanian mafia which has turned the country into one of blood feuds kalashnikovs and eternal crises Yet Albania is in essence a European nation like any other and will soon it is to be hoped advance and take its proper place in Europe and the world The second edition of the Historical Dictionary of Albania relates the history of this little known country through a detailed chronology an introduction a bibliography appendixes and over 700 cross referenced dictionary entries on significant persons places and events institutions and organizations and political economic social cultural and religious facets

Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important. Similarly an entry on an individual novel discusses the importance of that novel not only from analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre. A wide range of topic entries explore the history, criticism, theory, production, dissemination and reception of the novel. A very important component of the *Encyclopedia of the Novel* is its long surveys of development of the novel in various regions of the world.

Exchange, Dialogue, New Divisions? Sonja Schöler, 2016. The countries of the larger region of Eastern Europe pass through change and modernization processes with ambivalent effects. This book tackles aspects of cultural diversity and change in the Baltic States in Southeast Europe and in the Southern Caucasus. These regions are diverse not only with regard to their historical, political and religious traditions but also with regard to their status as EU members or non members. The articles focus on the situation of ethnic minorities and related political and public discourses as well as on aspects of political cultures. The anthology also raises the topic of cleavages between geographic Eastern Europe and Europe's reunited part. Sonja Schöler is a Research and Teaching Assistant at the Department of Social Sciences, Social Anthropology of the University of Fribourg, Switzerland. Series: Freiburg Studies in Social Anthropology, Freiburger Sozialanthropologische Studien Vol. 45. Subject: Eastern European Studies, Sociology.

Uneven Citizenship: Minorities and Migrants in the Post-Yugoslav Space Gëzim Krasniqi, Dejan Stjepanović, 2017-10-02. This book focuses on the relations between citizenship and various manifestations of diversity including but not exclusively ethnicity. Contributors address migrants and minorities in a novel and original way by adding the concept of uneven citizenship to the debate surrounding the former Yugoslavian states. Referring to this uneven citizenship concept, this book not only engages with exclusionary legal, political and social practices but also looks at other unanticipated or unaccounted for results of citizenship policies. Individual chapters address statuses, rights and duties of refugees, internally displaced persons, IDPs, returnees, Roma and claimed co-ethnics as well as various interactions between dominant and non-dominant groups in the post-Yugoslav space. The particular focus is on migrants and minorities as these are frequently overlapping categories in the post-Yugoslav context and indeed more generally. Not only is policy framework addressed but also public understanding and the socio-historical developments which created legally and culturally stratified, transnationally marginalized, desired and claimed co-ethnics and those less wanted, often on the margins of citizenship. This book was originally published as a special issue of *Ethnopolitics*.

Encyclopedia of Greece and the Hellenic Tradition Graham Speake, 2021-01-31. Hellenism is the living culture of the Greek-speaking peoples and has a continuing history of more than 3,500 years. The *Encyclopedia of Greece and the Hellenic Tradition* contains approximately 900 entries devoted to people, places, periods, events and themes, examining every aspect of that culture from the Bronze Age to the present day. The focus throughout is on the Greeks themselves and the continuities within their own cultural tradition. Language and religion are perhaps the most obvious vehicles of continuity.

Culture and Power at the Edges of the State Thomas M. Wilson, Hastings Donnan, 2005 State borders are somewhere the state is keen to stress its presence and yet are simultaneously places where that presence is challenged They are sites of resistance to the state and at the same time places where the national interest is vigorously maintained This constant ambiguity generates questions about the dynamics of borderland state relations and about how what happens along the border can undermine state policies Using case studies of nation and state relations in borderlands in Europe this book seeks to understand how structures of power are created experienced changed and reproduced
