Shattering The Darkness The Crisis Of The Cross In The Church Today:

Shattering the Darkness Joseph Lapsley Foreman,1992 Misunderstanding Cults Thomas Robbins,Benjamin David Zablocki,2001-01-01 *Misunderstanding Cults* provides a uniquely balanced contribution to what has become a highly polarized area of study Working towards a moderate third path in the heated debate over new religious movements or cults this collection includes contributions from both scholars who have been characterized as anticult and those characterized as cult apologists The study incorporates multiple viewpoints as well as a variety of theoretical and methodological perspectives with the stated goal of depolarizing the discussion over alternative religious movements A prominent section within the book focuses explicitly on the issue of scholarly objectivity and the danger of partisanship in the study of cults The collection also includes contributions on the controversial and much misunderstood topic of brainwashing as well as discussions of cult violence children brought up in unconventional religious movements and the conflicts between alternative religious movements and their critics Unique in its breadth this is the first study of new religious movements to address the main points of controversy within the field while attempting to find a middle ground between opposing camps of scholarship

Biblical Counsel ,1993 *Radical Religion and Violence* Jeffrey Kaplan,2015-11-19 Jeffrey Kaplan has been one of the most influential scholars of new religious movements extremism and terrorism His pioneering use of interpretive fieldwork among radical and violent subcultures opened up new fields of scholarship and vastly increased our understanding of the beliefs and activities of extremists This collection features many of his seminal contributions to the field alongside several new pieces which place his work within the context of the latest research developments Combining discussion of the methodological issues alongside a broad array of case studies this will be essential reading for all students and scholars of extremism religion and politics and terrorism *Millennialism and Violence* Michael Barkun,2012-12-06 As the world approaches the year 2000 many societies are experiencing an unprecedented growth in millenarian movements that anticipate an imminent and total transformation of the world Many of these movements have been associated with violence either as a means for producing change or as a response to confrontations with state authority This book draws together research on this topic from political science psychology sociology and history in an attempt to understand the relationship between millenarian movements and episodes of violence **Pluralism Comes of Age** Charles H. Lippy,2015-05-20 This acclaimed work surveys the varied course of religious life in modern America Beginning with the close of the Victorian Age it moves through the shifting power of Protestantism and American Catholicism and into the intense period of immigration and pluralism that has characterized our nation s religious experience **Abortion from the Religious and Moral**

Perspective: George F. Johnston,2003-03-30 For approximately three decades the abortion debate has polarized America Views range from the extreme conservative position that all abortions are morally objectionable to the extreme liberal position that abortion throughout all nine months of pregnancy is acceptable In the middle are those who advocate laws

limiting the number of valid reasons for abortion This comprehensive volume includes bibliographic citations that address the moral and religious aspects of abortion It covers such topics as the various arguments both for and against abortion the status of the fetus and overviews of several religions stances on abortion Citations also include references on how Christianity has influenced abortion politics and law discussions of Operation Rescue and official statements on abortion by the Catholic Church and several Protestant denominations Researchers as well as anyone interested in the moral and religious elements of abortion will find this resource invaluable It covers the literature on abortion and religion found in books essays journal articles academic dissertations and Web sites And unlike many of the available bibliographies this one focuses only on the religious and moral issues therefore providing greater depth on those two issues within one work

Insurgent Terrorism Gerald Cromer, 2017-11-30 Terrorists engage in propaganda and rhetoric even though they prefer the power of deed over word They use a wide variety of mechanisms of moral disengagement to convince themselves of the rightness of their actions a necessary prerequisite for taking up arms The articles collected together in this excellent volume focus on the rhetoric and propaganda used by insurgent terrorists to justify their resort to violence The volume includes a thoughtful introduction which summarizes the main findings of the literature drawing attention to the many different kinds of terrorist propaganda and the underlying similarity between them *The Religious Right* Glenn H. Utter, John W.
