The Caliph and the Imam Toby Matthiesen, 2023

The authoritative account of the sectarian division that for centuries has shaped events in the Middle East and the Islamic world. In 632, soon after the prophet Muhammad died, a struggle broke out among his followers as to who would succeed him. The majority argued that the new leader of Islam should be elected by the community's elite. Others believed only members of Muhammad's family could lead. This dispute over who should guide Muslims, the appointed Caliph or the bloodline Imam, marks the origin of the Sunni-Shii split in Islam. Toby Matthiesen explores this hugely significant division from its origins to the present day. Moving chronologically, his book sheds light on the many ways that it has shaped the Islamic world, outlining how over the centuries Sunnism and Shiism became Islam's two main branches, particularly after the Muslim Empires embraced sectarian identity. It reveals how colonial rule institutionalised divisions between Sunnism and Shiism, both on the Indian subcontinent and in the greater Middle East, giving rise to pan-Islamic resistance and Sunni and Shii revivalism. It then focuses on the fallout from the 1979 revolution in Iran and the US-led military intervention in Iraq. As Matthiesen shows, however, though Sunnism and Shiism have had a long and antagonistic history, most Muslims have led lives characterised by confessional ambiguity and peaceful co-existence. Tensions arise when sectarian identity becomes linked to politics. Based on a synthesis of decades of scholarship in numerous languages, *The Caliph and the Imam* will become the standard text for readers looking for a deeper understanding of contemporary sectarian conflict and its historical roots.

Books-In-Brief:

Islamic Legal Methodology Ahmad Kazemi Moussavi, Hamid Mavani, 2024-07-16

This book discusses the historical development of the legal methodology for the interpretation of the Shari'ah and analyzes proposed reforms by modern Muslim scholars. This study has two goals: 1) to summarize *usul al fiqh*'s rise and development from its rudimentary form to its advanced and mature phase by articulating the contributions of eminent jurists on key intellectual debates, and 2) to present a schema of reforms, new hermeneutics, and epistemology proposed by modernists to bring about foundational changes in Islamic legal methodology so that they can bypass the authority of the legal language. The critical distinction between the timeless Shari'ah and mutable jurisprudence allows for a mechanism that can review and revise juridical opinions in the light of new information.

Twelve Infallible Men Matthew Pierce, 2016-06-13

In the tenth century, Shi'a scholars assembled accounts of twelve imams, lives portraying them as miracle workers who were betrayed. These biographies invoked shared cultural memories, shaped communal responses, and ritual practices of mourning, and inspired Shi'a identity and religious imagination for centuries to come. Matthew Pierce shows

Hawza-yi 'Ilmiyya, Shi'i Teaching Institution Gholamali

Haddad Adel, Mohammad Jafar Elmi, Hassan Taromi-Rad, 2012-08-31 For centuries the hawza system of seminary education has produced outstanding scholars and fostered the development of Islamic studies throughout the Shi'i world. The present book discusses the hawza from its formative period in the second Islamic century until the modern day. In addition to discussing the major hawza centres of Qum and Najaf it also discusses the history and development of hawzas in Ray, Baghdad, Hilla, Jabal Amil, Isfahan, Tehran and Mashhad. Academic concerns such as texts, curricula and pedagogical methodologies are discussed along with the sociopolitical conditions that affected the hawzas. This book is part of a series of translations from the Encyclopaedia of the World of Islam (EWI) which was originally compiled in Persian. Other entries from this encyclopaedia which are available in English include Hadith, History and Historiography, Periodicals of the Muslim World, Muslim Organizations, Politics, Political Parties, Qur'anic Commentaries, Qur'anic Exegesis, Sufism and Education in Islamic Civilisation.

Religious Authority and Political Thought in Twelver Shi'ism Hamid Mavani, 2013-06-26 Ranging from the time of the infallible Imams to the contemporary era, this book provides a comprehensive overview of Shi'i religious and political authority focusing on Iran and Lebanon without limiting the discourse to Khomeini's version of an Islamic State. Utilising untapped Arabic and Persian sources, Hamid Mavani provides a detailed, nuanced and diverse theoretical discussion on the doctrine of leadership (Imamate) in Shi'ism from traditional theological, philosophical and mystical perspectives. This theoretical discussion becomes the foundation for an analysis of the transmission of the Twelfth Imam's religious and political authority vis-à-vis the jurists during his Greater Occultation. Bringing the often overlooked diversity within the Shi'i tradition into sharp focus, *Religious Authority and Political Thought in Twelver Shi'ism* discusses what constitutes an Islamic state if there is such a notion as an Islamic state. Hamid Mavani further explores the possibility of creating a space for secularity, facilitating a separation between religion and state and ensuring equal rights for all. This book argues that such a development is only possible if there is a rehabilitation of ijtihad. If this were to materialise, modern religious, social, economic, political and cultural challenges could be addressed more successfully. This book will be of use to scholars and students with interests ranging from Politics to Religion to Middle East Studies.
