## **Shelf Life Supermarkets And The Changing Cultures Of Consumption:**

**Shelf Life** Kim Humphery,1998-07-27 Supermarkets in all their everyday mundanity embody something of the enormous complexity of living and consuming in late twentieth century western societies Shelf Life first published in 1998 explores the supermarket as a retail space and as an arena of everyday consumption in Australia It historically situates and critically discusses the everyday food products we buy the retail environments in which we do so the attitudes of the retailers who construct such environments and the diverse ways in which all of us undertake and think about supermarket shopping Yet this book is more than narrative history It engages with broader issues of the nature of Australian modernity the globalisation of retail forms the connection between consumption and self autonomy and the highly gendered nature of retailing and shopping It interrogates also the work of cultural critics and questions recent attempts to grasp what it means to consume and to be a consumer

**Shelf Life** Kim Humphery,1998-07-27 This book offers a history and cultural analysis of the supermarket and of everyday shopping in twentieth century Australia It discusses the rise of the supermarket in the United States and Britain and its eventual emergence in Australia in the 1960s This is contrasted with the demise of the counter service grocery store As well the views of shoppers in Australia toward the new supermarkets are documented through the use of oral history More broadly the book involves a critical discussion of what it means to live in a consumer society and of the work of cultural analysts on consumption

*Eating History* Andrew F. Smith,2009-09-18 Food expert and celebrated food historian Andrew F Smith recounts in delicious detail the creation of contemporary American cuisine The diet of the modern American wasn t always as corporate conglomerated and corn rich as it is today and the style of American cooking along with the ingredients that compose it has never been fixed With a cast of characters including bold inventors savvy restaurateurs ruthless advertisers mad scientists adventurous entrepreneurs celebrity chefs and relentless health nuts Smith pins down the truly crackerjack history behind the way America eats Smith s story opens with early America an agriculturally independent nation where most citizens grew and consumed their own food Over the next two hundred years however Americans would

cultivate an entirely different approach to crops and consumption Advances in food processing transportation regulation nutrition and science introduced highly complex and mechanized methods of production The proliferation of cookbooks cooking shows and professionally designed kitchens made meals more commercially politically and culturally potent To better understand these trends Smith delves deeply and humorously into their creation Ultimately he shows how by revisiting this history we can reclaim the independent locally sustainable roots of American food

**Food Chains** Warren Belasco, Roger Horowitz, 2011-06-03 In recent years the integrity of food production and distribution has become an issue of wide social concern The media frequently report on cases of food contamination as well as on the risks of hormones and cloning Journalists documentary filmmakers and activists have had their say but until now a survey of the latest research on the history of the modern food provisioning system the network that connects farms and fields to supermarkets and the dining table has been unavailable In Food Chains Warren Belasco and Roger Horowitz present a collection of fascinating case studies that reveal the historical underpinnings and institutional arrangements that compose this system The dozen essays in Food Chains range widely in subject from the pig poultry and seafood industries to the origins of the shopping cart The book examines what it took to put ice in nineteenth century refrigerators why Soviet citizens could buy ice cream whenever they wanted what made Mexican food popular in France and why Americans turned to commercial pet food in place of table scraps for their dogs and cats Food Chains goes behind the grocery shelves explaining why Americans in the early twentieth century preferred to buy bread rather than make it and how Southerners learned to like self serve shopping Taken together these essays demonstrate the value of a historical perspective on the modern food provisioning system

**Transformations of Retailing in Europe after 1945** Lydia Langer, 2016-02-17

After World War II structures practices and the culture of retailing in most West European countries went through a period of rapid change The post war economic boom the emergence of a mass consumer society and the adaptation of innovations which already had been implemented in the USA during the interwar period revolutionized the world of getting and spending But the implementation of self service and the supermarket the spread of the department store and the mail order business were not only elements of a transatlantic catch up process of Americanization of retailing National patterns of the retail trade and specific cultures of consumption remained crucial and long term processes of change starting in the 1920s or 1930s also had an impact on the transformation of retailing in post war Europe This volume presents a series of case studies looking at transformations of retailing in several European countries offering new insights into the structural preconditions of the emerging mass consumer societies and also into the consequences consumerism had on the practices of retailing

**Consumer Australia** Robert Crawford, Kim Humphery, Judith Smart, 2010-06-09 Donald Horne s The Lucky Country claimed that Australia was one of the first nations to find part of the meaning of life in the purchase of consumer goods Significantly similar views had been expressed in the late 18th century where everyday life in the antipodean outpost of Empire was regarded as being pecuniary and acquisitive in nature While references to Australia as a consumer society continue to be made the question of how Australia came to be so has attracted less attention The chapters in Consumer Australia actively redress this omission by examining the ways in which the processes of selling buying and exchanging have characterised the experiences of consumption in every day Australian life Prepared by leading and emerging scholars the

chapters in this unique collection critically explore the different ways that Australians have consumed products brands and even consumption itself from the 19th century and through the 20th century By charting the growth and development of consumption in Australia Consumer Australia reveals how Australia came to be a consumer society and asks where it is headed

**Leftovers** Eleanor Barnett, 2024-03-14 A topical and richly entertaining history of food preservation and food waste in Britain from the sixteenth century kitchen to the present day In Leftovers Eleanor Barnett explores the many ingenious ways in which our ancestors sought to extend the life of food through preservation the culinary reuse of leftovers and the recycling of food scraps Embracing a broad historical lens the book spans Tudor household management the world changing inventions in food preservation of the Industrial Revolution from the tin can to artificial refrigeration the growth of public health initiatives and organised food waste collection in the Victorian era state promotion of thrifty eating during the two World Wars and the politics of food and packaging waste in the modern era of sustainability Opening a window on the everyday experiences of ordinary people in the past Leftovers reveals how factors such as religious belief class identities and gender have historically shaped attitudes towards food waste At a time when a third of the food we produce globally is wasted Leftovers links its central historical focus to humanitarian and environmental issues of urgent contemporary interest including climate change globalisation scientific advancement poverty and inequality

Haunting the Knowledge Economy Jane Kenway, Elizabeth Bullen, Johannah Fahey, Simon Robb, 2006-11-22 This highly original book provides an engaging and critical introduction to the knowledge economy The knowledge economy is a potent force pervading global and national policy circles Yet few people outside the field of economics understand its central ideas and practices This book makes these accessible But it does much more It provokes conversations between the knowledge economy and those marginalized economies that haunt it the risk gift libidinal and survival economies These illuminate the knowledge economy s shortcomings and point to alternative possible systems of exchange and sets of values This multi disciplinary study takes the knowledge economy out of the hands of the economists and brings it into creative tension with the ideas of key thinkers from sociology anthropology philosophy and ecology Illustrating the benefits of conversing with the ghosts of alternative economies this provocative book will unsettle the way in which the knowledge economy is understood Groundbreaking and globally applicable it has been authored by internationally respected authors and its conceptual breadth pertains to a range of disciplines and gives it its wide appeal

**The Oxford Handbook of Food History** Jeffrey M. Pilcher, 2012-10-16 Food matters not only as a subject of study in its own right but also as a medium for conveying critical messages about capitalism the environment and social inequality to diverse audiences Recent scholarship on the subject draws from both a pathbreaking body of secondary literature and an inexhaustible wealth of primary sources from ancient Chinese philosophical tracts to McDonald s menus contributing new perspectives to the historical study of food culture and society and challenging the limits of history itself The Oxford Handbook of Food History places existing works in historiographical

context crossing disciplinary chronological and geographic boundaries while also suggesting new routes for future research The twenty seven essays in this book are organized into five sections historiography disciplinary approaches production circulation and consumption of food The first two sections examine the foundations of food history not only in relation to key developments in the discipline of history itself such as the French Annales school and the cultural turn but also in anthropology sociology geography pedagogy and the emerging Critical Nutrition Studies The following three sections sketch various trajectories of food as it travels from farm to table factory to eatery nature to society Each section balances material cultural and intellectual concerns whether juxtaposing questions of agriculture and the environment with the notion of cookbooks as historical documents early human migrations with modern culinary tourism or religious customs with social activism In its vast interdisciplinary scope this handbook brings students and scholars an authoritative guide to a field with fresh insights into one of the most fundamental human concerns
