Long Left Flank:

The Long Left Flank Williams, Jeffery, 1988 **Long Left Flank** Jeffery Williams, 1988-09-26 When in August 1944 the Allies broke out of Normandy the world's attention became fixed on the dramatic British and American armoured thrusts into the Rhine. The war in Europe seemed all but over. Far to the left along the flank of the Allied Expeditionary Force almost unnoticed a battle was beginning on whose outcome hung not only victory but the possibility of disaster. Under strength neglected by Montgomery and denied by Eisenhower the supposed which he had promised First Canadian Army paid an appalling price in casualties to clear the Channel coast and open up the great port of Antwerp. Commanded by General Harry Crerar the army contained not only Canadians but for most of the campaign more British troops than the Eighth Army. At Alamein Poles, Americans, Dutch, Belgians, Czechs and French served in it and were partnered in all their operations by the equally international No 84 Group RAF. Their hard won success in clearing the banks of the Scheldt and in capturing Walcheren Island was followed four months later by victory in the Rhineland. There with almost every one of Montgomery's British Divisions under command they smashed the best of what remained of the German Army and with it Hitler's last hope of defending the Rhine. The way was open for the Allies into the heart of the Reich. In the war's final phase most of Crerar's British divisions were replaced with Canadian formations newly arrived from their arduous campaign in Italy. Striking north and west after crossing the Rhine they liberated Holland and drove eastward into the heavily defended area of Germany. At war's end they had reached the Weser and were closing on the great naval bases of Emden and Wilhelmshaven. Jeffery Williams won wide acclaim for his definitive biography Viscount Byng of Vimy. He brings the same assured touch to this lively and fast moving account of a crucial aspect of the battle for North West Europe which has hitherto been largely neglected by historians.

English,2021-10-08 General Bernard Law Montgomery affectionately known as Monty exerted an influence on the Canadian Army more lasting than that of any other Second World War commander In 1942 he assumed responsibility for the exercise and training of Canadian formations in England and by the end of the war Canada s field army was second to none in the practical exercise of combined arms In Monty and the Canadian Army John A English analyses the way Montgomery s operational influence continued to permeate the Canadian Army For years the Canadian Army remained a highly professional force largely because it was commanded at almost every lower level by Monty men steeped in the Montgomery method The era of the Canadian Army headed by such men ceased with the integration and unification of Canada s armed forces in 1964 The embrace of Montgomery by Canadian soldiers stands in marked contrast to largely negative perceptions held by Americans Monty and the Canadian Army aims to correct such perceptions which are mostly superficial and more often than not wrong and addresses the anomaly of how this gifted general one of the greatest field commanders of the Second World War managed to win over other North American troops **The War of Detachments:**

American Poland-China Record American Poland-China Record Association,1920 **Pictorial History of the World War** Willis John Abbot,1919 Soldiers ,1974 *A Devil of a Whipping* Lawrence E. Babits,2011-02-01 The battle of Cowpens was a crucial turning point in the Revolutionary War in the South and stands as perhaps the finest American tactical demonstration of the entire war On 17 January 1781 Daniel Morgan s force of Continental troops and militia routed British regulars and Loyalists under the command of Banastre Tarleton The victory at Cowpens helped put the British army on the road to the Yorktown surrender and ultimately cleared the way for American independence Here Lawrence Babits provides a brand new interpretation of this pivotal South Carolina battle Whereas previous accounts relied on often inaccurate histories and a small sampling of participant narratives Babits uses veterans sworn pension statements long forgotten published accounts and a thorough knowledge of weaponry tactics and the art of moving men across the landscape He identifies where individuals were on the battlefield when they were there and what they saw creating an absorbing

common soldier's version of the conflict. His minute by minute account of the fighting explains what happened and why and in the process refutes much of the mythology that has clouded our picture of the battle. Babits put the events at Cowpens into a sequence that makes sense given the landscape, the drill manual, the time frame and participants' accounts. He presents an accurate accounting of the numbers involved and the battle's length. Using veterans' statements and an analysis of wounds, he shows how actions by North Carolina militia and American cavalry affected the battle at critical times. And by fitting together clues from a number of incomplete and disparate narratives, he answers questions the participants themselves could not, such as why South Carolina militiamen ran toward dragoons they feared and what caused the mistaken order on the Continental right flank. Barbarossa Derailed: The Battle for Smolensk 10 July-10 September 1941 David Glantz, 2012-04-10

The second half of a two part study on Operation Barbarossa, Hitler's plan to invade Soviet Russia during World War II and what went wrong. At dawn on 10 July 1941, massed tanks and motorized infantry of German Army Group Center's Second and Third Panzer Groups crossed the Dnepr and Western Dvina Rivers, beginning what Hitler and most German officers and soldiers believed would be a triumphal march on Moscow, the Soviet capital. Less than three weeks before, on 22 June, Hitler had unleashed his Wehrmacht's massive invasion of the Soviet Union, code named Operation Barbarossa, which sought to defeat the Soviet Red Army, conquer the country and unseat its Communist ruler, Josef Stalin. Between 22 June and 10 July, the Wehrmacht advanced up to 500 kilometers into Soviet territory, killed or captured up to one million Red Army soldiers and reached the western banks of the Western Dvina and Dnepr Rivers, by doing so satisfying the premier assumption of Plan Barbarossa that the Third Reich would emerge victorious if it could defeat and destroy the bulk of the Red Army before it withdrew to safety behind those two rivers. With the Red Army now shattered, Hitler and most Germans expected total victory in a matter of weeks. The ensuing battles in the Smolensk region frustrated German hopes for quick victory. Once across the Dvina and Dnepr Rivers, a surprised Wehrmacht encountered five fresh Soviet armies. Quick victory eluded the Germans. Instead, Soviet forces encircled in Mogilev and Smolensk stubbornly refused to surrender and while they fought on during July, August and into early September, first five and then a total of seven newly mobilized Soviet armies struck back viciously at the advancing Germans, conducting multiple counterattacks and counterstrokes capped by two major counteroffensives that sapped German strength and will. Despite immense losses in men and materiel, these desperate Soviet actions derailed Operation Barbarossa. Smarting from countless wounds inflicted on his vaunted Wehrmacht even before the fighting ended in the Smolensk region, Hitler postponed his march on Moscow and instead turned his forces southward to engage softer targets in the Kiev region. The derailment of the Wehrmacht at Smolensk ultimately became the crucial turning point in Operation Barbarossa. This groundbreaking study now significantly expands on exploits a wealth of Soviet and German archival materials, including the combat orders and operational plans of the German OKW, OKH army groups and armies and of the Soviet Stavka, the Red Army General Staff, the
