Long Short High Low Thin Wide

Amanda Miron, Douglas Robert Brown

Long Short High Low Thin Wide:

Long, Short, High, Low, Thin, Wide James Taylor Fey, Janie Russell, 1971-01-01 Relates how things were measured in ancient times and how they are measured today

The Typology of Physical Qualities Ekaterina Rakhilina, Tatiana Reznikova, Daria Ryzhova, 2022-05-15 What is it like This is often the first question we ask about any object and it is typically answered with adjectives old smooth pointed narrow etc Characteristics of things around us is a fundamental aspect of how we conceptualize the physical world regardless of when or where we live and regardless of our language Despite this the vocabulary of physical qualities has received comparatively little attention in lexical typology most research so far has focused on verbs and the actions they express This volume presents a lexico typological study of several domains of physical qualities sharp blunt wet empty full old as well as dimensions temperature and surface texture It discusses several theoretical issues including intragenetic language sampling the possibility of signed vs spoken language comparison at the lexicon level and the potential of applying computational models of distributional semantics to lexical typology The book will be of interest to linguists with a focus on typology general and lexical semantics to lexicographers and to language students and teachers

Chinese Lexical Semantics Minghui Dong, Jia-Fei Hong, Jingxia Lin, Peng Jin, 2024-02-27 This book constitutes the refereed proceedings of the 24th Workshop on Chinese Lexical Semantics CLSW 2023 held in Singapore during May 19 21 2023 The 61 full papers and 15 short papers included in this book were carefully reviewed and selected from 215 submissions They are organized in the following topical sections lexical semantics and related fields including Theoretical Linguistics Applied Linguistics Computational Linguistics Computational Lexicography Psychological Linguistics and Sociological linguistics

Plastic Glasses and Church

Fathers David Kronenfeld, 1996-04-11 Meaning seems to shift from context to context how do we know when someone says grab a chair that an ottoman or orange crate will do but when someone says let s buy a chair they won t Somehow in spite of this slipperiness we usually understand each other in conversations and have straightforward ways of querying each other when we sense a gap in understanding We seem capable of using ordinary language to communicate with as much precision as we are willing to take the time and effort for through attention to interactive feedback and the use of paraphrastic modification specification and explication In *Plastic Glasses and Church Fathers* Kronenfeld offers a theory that explains both the usefulness of language s variability of reference and the mechanisms which enable us to understand each other in spite of the variability His theory is rooted in the tradition of ethnoscience or cognitive anthropology a tradition which promotes an ethnography of explicit methodology and mathematically precise theory while remaining responsive to the complexity of particular cultures Kronenfeld accomplishes three things with his theory First he distinguishes prototypic referents from extended referents Second he describes the various bases of semantic extensions Finally he details how we use the situational context of usage the linguistic context of opposition and inclusion and the conceptual context of knowledge about the world to interpret communicative events

Multivariate and Mixture Distribution Rasch Models Matthias

Davies, Claus H. Carstensen, 2007-12-15 This volume gathers together a set of extensions of the Rasch model one of the most prominent models for measurement in educational research and social science developed by Danish mathematician Georg Rasch The idea for this volume emerged during a meeting of the Psychometric Society in Monterey CA At that meeting friends and colleagues discussed news about the impending retirement of Dr Jurgen Rost an important innovator and mentor in this field To recognize Jurgen s contributions we decided to produce a collection of research on extending the Rasch model as well as embedding the Rasch model in more complex statistical models an area that is receiving broad interest in many fields of social sciences at the current time This collection contains 22 chapters by recognized international experts in the field The contributions cover topics ranging from general model extensions to application in fields as diverse as cognition personality organizational and sports psychology and health sciences and education The Rasch model is designed for categorical data often collected as examinees responses to multiple tasks such as cognitive items from psychological tests or from educational assessments The Rasch model s elegant mathematical form is suitable for extensions that allow for greater flexibility in handling complex samples of examinees and collections of tasks from different domains In these extensions the Rasch model is enhanced by additional structural elements that account either for differences between diverse populations or for differences among observed variables
