The Balkans in Travel Writing Marija Knežević,2015-09-18 This book revisits images of the Balkans in twentieth century travel writing that vividly mirrors the turbulent changes that the region went through As such it provides a vital basis for research into the variety of possibilities or obstacles present on the region's path to accession when its unique heritage will have to be reconciled with a more European identity This volume explores the work of well known authors such as Rebecca West Paul Theroux Robert D Kaplan and also contributes to travel writing theory by addressing less known travellers who recorded their thoughts on the social dynamics of the region The corpus offers divergent and often contradictory views ranging from moral and political criticism to a delight in the rich heritage and the still undiscovered Balkan paths More importantly its generic potentials prove to overcome both the discourse of power and the discourse of apology Its narrative style also comprises striking variations from the objective and well researched approaches to quick impressionist sketches Being a multi generic form travel writing is observed from a multidisciplinary perspective encompassing fields such as literature linguistics history sociology anthropology ethnology political sciences and geography

Historical Dictionary of Albania Robert Elsie,2010-03-19 Albania is not well known by outsiders it was deliberately closed to the outside world during the communist era Now it has thankfully become free again its borders are open and it can be visited and it is increasingly integrating with the rest of Europe and beyond Unfortunately Albania has had its share of problems in the post communist era it's a land of destitution and despair thanks in part to the Albanian mafia which has turned the country into one of blood feuds kalashnikovs and eternal crises Yet Albania is in essence a European nation like any other and will soon it is to be hoped advance and take its proper place in Europe and the world The second edition of the Historical Dictionary of Albania relates the history of this little known country through a detailed chronology an introduction a bibliography appendixes and over 700 cross referenced dictionary entries on significant persons places and events institutions and organizations and political economic social cultural and religious facets

Ethnobotany in the New Europe Manuel Pardo-de-Santayana,Andrea Pieroni,Rajindra K. Puri,2010-06-01 The study of European wild food plants and herbal medicines is an old discipline that has been invigorated by a new generation of researchers pursuing ethnobotanical

studies in fresh contexts Modern botanical and medical science itself was built on studies of Medieval Europeans use of food plants and medicinal herbs In spite of monumental changes introduced in the Age of Discovery and Mercantile Capitalism some communities often of immigrants in foreign lands continue to hold on to old recipes and traditions while others have adopted and enculturated exotic plants and remedies into their diets and pharmacopoeia in new and creative ways Now in the 21st century in the age of the European Union and Globalization European folk botany is once again dynamically responding to changing cultural economic and political contexts The authors and studies presented in this book reflect work being conducted across Europe s many regions They tell the story of the on going evolution of human plant relations in one of the most bioculturally dynamic places on the planet and explore new approaches that link the re evaluation of plant based cultural heritage with the conservation and use of biocultural diversity Black Lambs & Grey Falcons John B.
