and Far Eastern scholars seeking comparanda and bibliography on other imperial structures The Body of the Combatant in the Ancient Mediterranean Hannah-Marie Chidwick, 2024-07-25 This volume explores a broad range of perceptions, receptions and constructions of the soldierly body in the ancient world, putting the notion of embodiment at the forefront of its engagement with ancient warfare. The 10 chapters presented here respond directly to the question of how war was embodied in antiquity by drawing on detailed case studies to examine the sensory and bodily experience of combat across wide-ranging time periods and geographies, from classical Greece and Rome to Roman Britain and Persia. Together they illustrate how the body in war is a vital universal element that unites these vastly different contexts. Although the centrality of the human body in war-making was recognized in antiquity, a body-centric approach to combat has yet to be widely adopted in modern Classical Studies. This collection brings together new research in ancient history, classical literature, material culture, bioarchaeology and art history within a theoretical framework drawn from recent developments in War Studies that places the body front and centre. The new perspectives it offers on brutality in battle, the physical expression of warrior identity and post-combat remembrance and recovery challenge readers to re-assess and expand their existing ideas as part of a broader ongoing call to arms to revolutionize the study of ancient warfare in the 21st century **Records of the Past**, 1908 **The Busy Periphery: Urban Systems of the Balkan and Danube Provinces (2nd - 3rd c. AD)** Damjan Donev, 2019-12-19 This book reconstructs the urban geography of the Balkan and Danube provinces during the Severan dynasty, mapping the variable developments of the urban network between and within the sub-regions of that part of the Roman Empire. It examines the role of the town in Roman provincial society and the prerequisites for their emergence and prosperity Arms and Armour of the Imperial Roman Soldier Raffaele D'Amato, Graham Sumner, 2009-09-17 A survey of the various forms of armour worn by the Roman soldier from 112 BC to 192 AD, featuring a wealth of illustrations and plates. From the Latin warriors on the Palatine Hill in the age of Romulus to the last defenders of Constantinople in 1453 AD, the weaponry of the Roman Army was constantly evolving. Through glory and defeat, the Roman warrior adapted to the changing face of warfare. Due to the immense size of the Roman Empire, which reached from the British Isles to the Arabian Gulf, the equipment of the Roman soldier varied greatly from region to region. Through the use of materials such as leather, linen and felt, the army was able to adjust its equipment to these varied climates. Arms and Armour of the Imperial Roman Soldier sheds new light on the many different types of armour used by the Roman soldier and combines written and artistic sources with the analysis of old and new archaeological finds. With a huge wealth of plates and illustrations, which include ancient paintings, mosaics, sculptures and coin depictions, this book gives the reader an unparalleled visual record of this fascinating period of military history. This book is the first of three volumes; Volume I examines the period from Marius to Commodus, Volume II will cover the period from Commodus to Justinian, and Volume III will look at the period from Romulus to Marius. An impressive achievement, a testament to an enormous scholarly effort, and it is a significant contribution to the understanding of the

Roman army Bryn Mawr Classical Review Without doubt this is the definitive study of clothing armour and weaponry worn by Roman soldiers during the golden age of their conquests D Amato has brought together a remarkable collection of archaeological photographs gathered over decades to illustrate every aspect of this military evolution A treasure trove of facts and illustrations that is essential reading for any Roman military enthusiast Tim Newark Military Illustrated Magazine
