**Biology** Addison-Wesley Longman, Incorporated,1996-06      **Longman Biology Handbook** Neil Curtis,1992

*Longman A-Level Biology* Yin Kiong Hoh,2002      **Longman a Level Course in Biology (Core Syllabus** Yin Kiong Hoh,2004-06      *Longman Biology 11-14 (2009 Edition)* Janet Williams,Chris Workman,Aaron Bridges,2009-07 The Longman Science 11 14 series aims to put science into context both historically and in the modern world as well as reinforcing and consolidating learning through questions summaries and investigation ideas      *Computer Applications S4a ,      A Student Handbook for Writing in Biology* Karin Knisely,2009-04-10 Providing practical advice to students on how to write for biology this book shows how to write for a particular audience self evaluate drafts and paraphrase for improved comprehension      **A - Airports** British Library,2012-05-21 No detailed description available for A Airports      *Reference Catalogue of Current Literature* ,1906      *Evolution Education Around the Globe* Hasan Deniz,Lisa A. Borgerding,2018-06-21 This edited book provides a global view on evolution education It describes the state of evolution education in different countries that are representative of geographical regions around the globe such as Eastern Europe Western Europe North Africa South Africa North America South America Middle East Far East South East Asia Australia and New Zealand Studies in evolution education literature can be divided into three main categories a understanding the interrelationships among cognitive affective epistemological and religious factors that are related to peoples views about evolution b designing implementing evaluating evolution education curriculum that reflects contemporary evolution understanding and c reducing antievolutionary attitudes This volume systematically summarizes the evolution education literature across these three categories for each country or geographical region The individual chapters thus include common elements that facilitate a cross cultural meta analysis Written for a primarily academic audience this book provides a much needed common background for future evolution education research across the globe      **Biology and Freedom** S. A. Barnett,1988 *Biology and Freedom* first published in 1989 is an essay on human nature an attempt to make a just assessment of a species often presented as predominantly and unavoidably violent grasping selfish and stupid Likening human beings to animals is a traditional method of influencing attitudes on morals and politics But in this book Professor Barnett shows that modern ethology experimental psychology genetics and evolutionary theory give the now fashionable misanthropy no authentic support In doing so he asks whether the theory of evolution has any bearing on Machiavellianism in politics or the concept of original sin and whether laboratory experiments on the effects of reward and punishment tell us anything about the enigma of free will Combining the findings of biology with logic and humour Professor Barnett gives a lucid alternative portrait of humanity in which he stresses the questions that the complexities of human existence will raise long after current myths have faded This book is for all interested in human nature and the future of human society      **Handbook of Flowering** Abraham H. Halevy,2018-01-18 These volumes are an exhaustive source of information on the control and regulation of flowering They

present data on the factors controlling flower induction and how they may be affected by climate and chemical treatments For each plant specific information is provided on all aspects of flower development including sex expression requirements for flowering initiation and development photoperiod light density vernalization and other temperature effects and interactions Individual species are described from the standpoint of juvenility and maturation morphology induction and morphogenesis to anthesis All information is presented alphabetically for easy reference

**The Oxford Handbook of Philosophy of Biology** Michael Ruse, 2008-07-10 This handbook covers the history of philosophy of biology then moves on to evolutionary theory It continues with discussions of molecular biology and ecology and covers biology and ethics as well as biology and religion
