Look Of The West Across The Plains:

Landscapes and Landforms of Western Canada Olav Slaymaker, 2016-12-01 This is the only book to focus on the geomorphological landscapes of Canada West It outlines the little appreciated diversity of Canada's landscapes and the nature of the geomorphological landscape which deserves wider publicity Three of the most important geomorphological facts related to Canada are that 90% of its total area emerged from ice sheet cover relatively recently from a geological perspective permafrost underlies 50% of its landmass and the country enjoys the benefits of having three oceans as its borders the Arctic Pacific and Atlantic oceans Canada West is a land of extreme contrasts from the rugged Cordillera to the wide open spaces of the Prairies from the humid west coast forests to the semi desert in the interior of British Columbia and from the vast Mackenzie river system of the to small steep cascading streams on Vancouver Island The thickest Canadian permafrost is found in the Yukon and extensive areas of the Cordillera are underlain by sporadic permafrost side by side with the never glaciated plateaus of the Yukon One of the curiosities of Canada West is the presence of volcanic landforms extruded through the ice cover of the late Pleistocene and Holocene epochs which have also left a strong imprint on the landscape The Mackenzie and Fraser deltas provide the contrast of large river deltas debouching respectively into the Arctic and Pacific oceans

Julian Sayerer, 2014-06-05 Julian Sayerer grew up riding a bicycle Working as a bike courier in London he learned the world record for a circumnavigation by bike had been broken and that cycling into the sunset had been bought by banks and big business Determined to do things differently Julian set out to take back the record for the people Life Cycles is his story of that record riding 110 miles every 24 hours for 6 months on only 8 84 a day a route through jungles snow and 20 different countries He found himself stranded without money

in the deserts of Kazakhstan held up by insurrections in northwest China and sleeping under motorway bridges in America's Deep South Taken by life on the road and a spirit of adventure he loved every minute of it A tale of excitement and world politics by bicycle travelling at 12mph Julian found that the Tartars of Central Asia aren't so different to the trailer families of Louisiana This book is a reminder that the world is out there and it's waiting for us This is a very inspiring tale that says a lot about the human race its hopes and expectations and there is even a bit about the bicycle especially spoke breakages Mike Burrows Designer of Chris Boardman's 1992 Olympic winning bicycle Cavalcade of American Writing Gunnar Horn,1961
