Sweden Through the Artist's Eye Carl Gustaf Laurin, 1911 *Art of the Landscape* Raffaele Milani, 2009-04-01 Aesthetics deals with art a human construction but what one experiences when placed before nature is also an aesthetic feeling the countryside is a place of reflection like no other In The Art of the Landscape Raffaele Milani interprets natural landscapes as an aesthetic category Drawing from philosophical traditions literature and art he calls the reader's attention to a special consciousness originally established during the pre Romantic age that has become a distinctive feature of contemporary spirituality Focusing on the definition of landscapes in relation to the concepts of nature environment territory and man made settings such as gardens and cities Milani examines the origins of the predilection for natural scenery in the works of landscape painters and in travel literature He addresses the distinctness of the aesthetic experience of landscapes analyses the role of aesthetic categories and explores landscape art as a medium of contemplation What emerges is an original morphology of natural beauty derived from the scrutiny of landscape elements most frequently associated with aesthetic emotion the colour of water and the sky earth and stones fire and volcanic eruptions ruins and the mountains an analysis especially relevant given the increasing fragility of our natural environment

Rockefeller, Carnegie, and Canada Jeffrey Brison,2005-12-01 In the first half of the twentieth century the Rockefeller Foundation and the Carnegie Corporation helped to create and maintain a cultural and intellectual infrastructure in Canada that benefited key institutions such as University of Toronto McGill University the National Gallery the Humanities Research Council of Canada and the Canadian Social Science Research Council Jeffrey Brison documents how American philanthropy facilitated the transformation from a private localized system of cultural intellectual and academic patronage to a complex nation based system of incorporated patronage a system in which the major patron was the federal state His study calls into question our essentialistic notions of contrasting national identities and the now mythologized juxtaposition of an American culture fueled by the free market with a Canadian one sustained by state support

Lectures on Literature Vladimir Nabokov, 2017-12-05 The acclaimed author of *Lolita* offers unique insight into works by James Joyce, Franz Kafka, Jane Austen and others with an introduction by John Updike. In the 1940s when Vladimir Nabokov first embarked on his academic career in the United States, he brought with him hundreds of original lectures on the authors he most admired. For two decades those lectures served as the basis for Nabokov's teaching, first at Wellesley and then at Cornell, as he introduced undergraduates to the delights of great fiction. This volume collects Nabokov's famous lectures on Western European literature with analysis and commentary on Charles Dickens's *Bleak House*, Gustav Flaubert's *Madam Bovary*, Marcel Proust's *The Walk by Swann's Place*, Robert Louis Stevenson's *The Strange Case of Dr Jekyll and Mr Hyde* and other works. This volume also includes photographic reproductions of Nabokov's original notes, revealing his own edits, underlined passages and more. Edited and with a Foreword by Fredson Bowers. Introduction by John Updike. **Planetary**

Vistas Paul Murdin, 2015-06-01 The word landscape can mean picture as well as natural scenery. Recent advances in space exploration imaging have allowed us to now have landscapes never before possible, and this book collects some of the greatest views and vistas of Mars, Venus, Titan, Io and more in their full glory with background information to put into context the foreign landforms of our Solar System. Here, literally, are other worldly visions of strange new scenes all captured by the latest technology by landing and roving vehicles or by very low flying spacecraft. There is more than scientific interest in these views. They are also aesthetically beautiful and intriguing, and Dr Murdin, in a final chapter, compares them to terrestrial landscapes in fine art. *Planetary Vistas* is a science book and a travel book across the planets and moons of the Solar System for armchair space explorers who want to be amazed and informed. This book shows what future space explorers will experience because these are the landscapes that astronauts and space tourists will see. **kaghan valley**
