more Hudson's narrative revolves around William MacGregor a young Scottish immigrant trying to establish himself in the New World A lover of philosophy and Shakespeare William is penniless which leads him to take work as a cow hunter colonial cowboy for a pinder colonial rancher of a cowpen colonial ranch in the Carolina backcountry. The pinder an older man with three daughters sees his world unraveling as he ages The parallel to King Lear does not escape William who gets caught up in the family drama as he falls in love with the pinder's youngest daughter Except for the boss of his crew who is the pinder's son in law William's fellow cow hunters are slaves an old Indian captured in Spanish Florida a Fulani captured in Africa and two brothers half Indian and half African who were born into slavery in the New World A roque bull adds a chilling element of danger and the romance is complicated by a rivalry with a wealthy rice planter s son William struggles to salvage something from the increasingly disastrous situation and the King Lear like dissolution of the cowpen proceeds apace as the story heads toward its conclusion With an ethnohistorian s attention to context and detail Charles Hudson has written a compelling novel about the eighteenth century Carolina backcountry and its memorable characters the likes of whom the documentary record rarely reveals Theda Perdue professor emerita of history University of North Carolina Chapel Hill Whether trudging through the dismal swamps riding through the solitary longleaf forest or just hanging out at the cowpen Hudson renders the life of an eighteenth century Southern cow hunter s life palatable and real With a true sense of place and time Hudson brings the little known colonial South Carolina backcountry to spectacular life Robbie Ethridge professor of anthropology The University of Mississippi The History of Florida Michael Gannon, 2018-06-26 Previously published as The New History of Florida Tracing the Cape Romain Archipelago Bob Raynor, 2009-09-15 Between Myrtle Beach and Charleston lies the Cape Romain archipelago which links with adjoining barrier islands to form a section of pristine protected coast designated as a UNESCO Biosphere Reserve Local sailing enthusiast Bob Raynor author of Exploring Bull Island spent years weaving through the archipelago in his silent sailboat Kingfisher On his many forays through the wild territory he encountered diverse and abundant wildlife Native American shell middens storms conservation efforts and plenty of cultural and natural history His captivating firsthand descriptions of the area which is under threat from coastal development offer a priceless glimpse into one of South Carolinas most important natural treasures A Field Guide to Wildflowers of the **Sandhills Region** Bruce A.
