A Beginner's History William H. Mace,2015-12-03 The material out of which the child pictures history lies all about him When he learns to handle objects or observes men and other beings act he is gathering material to form images for the stories you tell him or those he reads So supple and vigorous is the child's imagination that he can put this store of material to use in picturing a fairy story a legend or a myth From this same source his observation of the people and things about him he gathers simple meanings and ideas of his own He weaves these

meanings and ideas in part into the stories he reads or is told From the cradle to the grave he should exercise this habit of testing the men and institutions he studies by a comparison with those he has seen The teacher should use the stories in this book to impress upon the pupil s mind the idea that life is a constant struggle against opposing difficulties The pupil should be able to see that the great men of American history spent their lives in a ceaseless effort to conquer obstacles For everywhere men find opponents What a struggle Lincoln had against the twin difficulties of poverty and ignorance What a battle Roosevelt waged with timidity and a sickly boyhood And what a tremendously courageous and vigorous man he became In the fight which men wage for noble or ignoble ends the pupil finds his greatest source of interest Here he forms his ideas of right and wrong and deals out praise and blame among the characters Hence the need of presenting true Americans patriotic Americans for his study This book of American history includes the stirring scenes of the world s greatest war It shows how a vast nation loving peace and hating war worked to get ready to fight how it trained its soldiers and planned a great navy and how when all was ready it hurled two million men against the Germans and helped our brave allies to crush the cruellest foe that war ever let loose With the knowledge of American men and events which the study of our history should give him the pupil is ready to ask where the first Americans came from To answer that question and many others we must go to European history We must look at the great peoples of the world s earlier history and see how their civilization finally developed into that which those colonists who pushed across the Atlantic to America brought with them But the civilization brought to this country by earlier or by later comers must not cease to grow America has her part to add to its development With the close of the World War we must not forget one fact which that conflict brought out the vast number of people in the United States almost untouched by the spirit of American institutions Teachers of history the subject matter of which is the story of American institutions and American leaders can do much to change such conditions This need for more thorough Americanization they can help to fill by teaching in their classes not a mechanical patriotism but a loyal understanding of American ideals

History, the White House and the Kremlin Michael Graham Fry, 2016-10-06

Historical knowledge in its various forms learned observed and experienced is one of the principal intellectual resources available to politicians and the officials who serve them These policy communities habitually though sometimes naively inexpertly and misleadingly use history in the crafting of policy In this book the question of whether politicians use history wisely and judiciously is posed about those who inhabit the Kremlin as well as the White House The question has several dimensions which are examined here in a series of original essays Is historically based reasoning rational How influential is historical knowledge in deliberations over policy And does historically based reasoning lead to sound decisions about future policy The authors range over a wide area of economic and political issues Palestine Soviet policy British and United States hegemonies and comparable predicaments United States acceptance of its international responsibilities Soviet expansionism the Cuban Missile Crisis US policy towards Latin America and the historical content of President Bush Sr s response to Iraq s
