Looking Back Looking Ahead A History Of American Medical Education:

Looking Back, Looking Ahead James J. Smith, Lucy S. Shaker, 2003 Bibliography of the History of Medicine, 1993

The Journal of Health and Physical Education, 1935 **History** Anna Greenwood, 2023-10-06 History has been a source of cultural fascination since ancient times however little attention has been paid to its potential as a positive force for health and wellbeing at least until now Presenting the benefits of historical engagement and practical tips for making the most of it Anna Greenwood considers the power this discipline has to spur better health outcomes A ground breaking work for history buffs and healthcare providers alike this new instalment in the Arts for Health series by one of the leading scholars in modern health history advocates for history's ability to deepen sympathies broaden imaginations and create community beyond the customary restrictions of time and geography Journal of Health, Physical Education, Recreation, 1935 Medicine, Health, and Bioethics K. Lee Lerner, 2006 A focus on leading social issues of the 19th 20th and 21st centuries Each title contains approximately 175 full or excerpted documents speeches legislation magazine and newspaper articles essays memoirs letters interviews novels songs and works of art as well as overview information that places each document in context Index-catalogue of the Library of the Surgeon General's Office, United States Army (Army Medical Library) Army Medical Library (U.S.), 1940 Index-catalogue of the Library of the Surgeon-General's Office, United States Army National Library of Medicine (U.S.), 1940 Evaluation and Explanation in the Biomedical Sciences H. Tristram Engelhardt Jr., S.F. Spicker, 2012-12-06 This volume inaugurates a series concerning philosophy and medicine There are few if any areas of social concern so pervasive as medicine and yet as underexamined by philosophy But the claim to precedence of the Proceedings of the First Trans Disciplinary Symposium on Philosophy and Medicine must be qualified Claims to be first are notorious in the history of scientific as well as humanistic investigation and the claim that the First Trans Disciplinary Symposium on Philosophy and Medicine has no precedent is not meant to be put in bald form The editors clearly do not maintain that philosophers and physicians have not heretofore discussed matters of mutual concern nor that individual philosophers and physicians have never taken up problems and concepts in medicine which are themselves at the boundary or interface of these two disciplines concepts like matter disease psyche Surely there have been books published on the logic and philosophy of medicine But the formalization of issues and concepts in medicine has not received at least in this century sustained interest by professional philosophers Groups of philosophers have not engaged medicine in order to explicate its philosophical presuppositions and to sort out the various concepts which appear in medicine The scope of such an effort takes the philosopher beyond problems and issues which today are subsumed under the rubric medical ethics
