Begun, 2012-12-20 A Companion to Paleoanthropology presents a compendium of readings from leading scholars in the field that define our current knowledge of the major discoveries and developments in human origins and human evolution tracing the fossil record from primate and hominid origins to the dispersal of modern humans across the globe Represents an accessible state of the art summary of the entire field of paleoanthropology with an overview of hominid taxonomy Features articles on the key discoveries in ape and human evolution in cranial postcranial and brain evolution growth and development Surveys the breadth of the paleontological record from primate origins to modern humans Highlights the unique methods and techniques of paleoanthropology including dating and ecological methods and use of living primate data to reconstruct behavior in fossil apes and humans *The Quarterly Journal of the Geological Society of London* Geological Society of London, 1874 Vols 1 108 include Proceedings of the society separately paged beginning with v 30 **Exploring the Way Life Works** Mahlon B. Hoagland, Bert Dodson, Judith Hauck, 2001 The perfect answer for any instructor seeking a more concise meaningful and flexible alternative to the standard introductory biology text *Dinosaurs and Other Extinct Saurians* Richard Moody, 2010 The discovery of dinosaurs and other large extinct saurians a term under which the Victorians commonly lumped ichthyosaurs plesiosaurs pterosaurs and their kin makes exciting reading and has caught the attention of palaeontologists historians of science and the general public alike The papers in this collection go beyond the familiar tales about famous fossil hunters and focus on relatively little known episodes in the discovery and

interpretation from both a scientific and an artistic point of view of dinosaurs and other inhabitants of the Mesozoic world They cover a long time span from the beginnings of modern scientific palaeontology in the 1700s to the present and deal with many parts of the world from the Yorkshire coast to Central India from Bavaria to the Sahara The characters in these stories include professional palaeontologists and geologists some of them well known others quite obscure explorers amateur fossil collectors and artists linked together by their interest in Mesozoic creatures Ice Ages Allan Mazur, 2022-02-10 What causes Ice Ages How did we learn about them What were their affects on the social history of humanity Allan Mazur s book tells the appealing history of the scientific discovery of Ice Ages How we learned that much of the Earth was repeatedly covered by huge ice sheets why that occurred and how the waning of the last Ice Age paved the way for agrarian civilization and ultimately our present social structures The book discusses implications for the current controversies over anthropogenic climate change public understanding of science and lack of trust in experts In parallel to the history and science of Ice Ages sociologist Mazur highlights why this is especially relevant right now for humanity Ice Ages Their Social and Natural History is an engrossing combination of natural science and social history glaciology and sociology writ large
