Enos, 2017 The Space Between Us brings the connection between geography psychology and politics to life By going into the neighborhoods of real cities Enos shows how our perceptions of racial ethnic and religious groups are intuitively shaped by where these groups live and interact daily Through the lens of numerous examples across the globe and drawing on a compelling combination of research techniques including field and laboratory experiments big data analysis and small scale interactions this timely book provides a new understanding of how geography shapes politics and how members of groups think about each other Enos analysis is punctuated with personal accounts from the field His rigorous research unfolds in accessible writing that will appeal to specialists and non specialists alike illuminating the profound effects of social geography on how we relate to think about and politically interact across groups in the fabric of our daily lives Jacket **Demographic Impact of Immigration on the United States** United States.
