## **Los Duenos De La Argentina Ii Los Secretos Del Verdadero Poder:**

*Argentinian Telenovelas* Gabriela Jonas Aharoni,2015-07-01 This work explores the way in which telenovelas TV serial dramas give voice to contemporary and historical Argentinian social and political issues Telenovelas have multiple layers of socio cultural message local as well as global and are invariably laden with appealing drama and emotion and sometimes comedy The discussion focuses on how telenovelas reflect society s perception of and adjustment toward issues of globalisation They are a means of portraying how individuals and families rationalize and incorporate rapid social and economic changes The book explores how telenovelas might offer a subversive interpretation of reality or provide a channel of dialogue with the government s political aims The author challenges the assumption that they are merely a reflection of historical political and social circumstance One of the many telenovela examples addressed in this book is whether the serial Padre Coraje constructs a parallel between the current Kirchner government and that of Juan Peron fifty years earlier The serial explores the two leaders relationship with the Church and implicitly presents President Kirchner as Peron s successor Explaining telenovelas as cultural texts they are not soap operas provides the primary basis for this study backed by Argentinian newspaper articles and secondary sources on Latin American history culture and economy as well as TV and cinema studies The result is a more profound and nuanced interpretation than hitherto of Argentinian telenovelas Analysis enables identification of the links between the serials storylines and contemporary political and social events These popular culture texts bring new meaning to the Argentinian historical narrative and for TV viewers puts the processes and effects of economic and social globalisation on a local multi cultural level perspective

*Prácticas de lectura con textos de estudio* Marta Marin,Beatriz Hall,2020-09-01 Gran parte de los estudiantes encuentra al comienzo de su carrera dificultades para comprender las

conceptualizaciones complejas que ofrecen los textos disciplinares específicos El recorrido de este libro est cuidadosamente pensado para que a su término los estudiantes hayan adquirido las estrategias necesarias para leer de manera más autónoma y eficaz Al mismo tiempo puede ser una excelente herramienta para los docentes En ese sentido puede utilizarse en los últimos años de la escuela secundaria o como ayuda para quienes cursen estudios superiores Privatization South American Style

Luigi Manzetti, 1999 Privatization South American Style focuses on the politics of privatization in Argentina Brazil and Peru It examines both the micro and macroeconomics of achieving privatization the policy measures introduced and factors affecting the implementation of privatization The political dimensions of privatization are analysed in order to explain the variations in national success in formulation and implementing privatization programmes The author argues that evidence suggests that national governments as planned and that rarely implement most divestiture policies from a technical standpoint privatization is a learning process that evolves through trial and error It also examines the apparently unconventional methods used by the governments of Argentina Brazil and Peru to achieve privatization Comparative in its approach the book seeks also to shed light on the nature of privatization in countries throughout the developing world The book more generally argues that poorly designed privatization policies may have future serious implications on issues such as the rule of law and the regulation of public utilities Los sectores dominantes en la Argentina Eduardo Basualdo, Pablo Manzanelli, 2022-08-22

Quienes mueven la rueda principal de la economía a del país De qué manera sus estrategias han dado forma al rumbo de la estructura productiva argentina en distintos momentos de su historia Quiénes establecieron estos sectores dominantes con el Estado y cómo lograron eludir algunas regulaciones Este libro necesario se dedica a desmenuzar la trayectoria de la llamada élite empresarial y dentro de ella de los grupos económicos locales y el capital extranjero durante el siglo XX y hasta hoy un análisis imprescindible si se quiere abordar en serio ciertos problemas actuales como la inflación la fuga de capitales al exterior o la recurrente falta de dólares Con probado rigor conceptual y el respaldo empírico de una exhaustiva e inédita base de datos sobre estas empresas y sus actividades los autores ponen en primer plano las circunstancias nacionales e internacionales que caracterizan cada período desde el modelo oligárquico agroexportador y la primera valorización financiera hasta las privatizaciones la megadevaluación la posconvertibilidad y la nueva valorización financiera durante el gobierno de Mauricio Macri Así por ejemplo abordan la apuesta histórica de los grupos económicos locales por consolidar una industrialización acotada a las exportaciones También a contrapelo de algunas miradas centradas en la inmediatez del corto plazo subrayan los costos implícitos de la inversión extranjera en el mediano y largo plazo que suelen omitirse al ponderar sus beneficios coyunturales y estudian un aspecto casi totalmente inexplorado hasta ahora como las políticas de especialización o diversificación que siguieron distintas casas matrices al abrir subsidiarias en el país Al entrelazar el análisis de los distintos patrones de acumulación con evidencia sistematizada Basualdo y Manzanelli no solo hacen un aporte fundamental al campo de la economía política nacional Además ofrecen un panorama revelador que puede servir como insumo para pensar

propuestas concretas de regulación de los grandes capitales nacionales y extranjeros una cuenta pendiente en la Argentina *Los dueños de la Argentina: Goyo Pérez Companc. Santiago Soldati. Aldo Roggio. Enrique Menotti Pescarmona* Luis Majul, 1992 Muckraking essays about how some of Argentines' richest men made their fortunes Pérez Companc, Soldati, Roggio and Pescamona Good reading and good insight into Argentine culture Could be read in conjunction with item below

puado de ricos y poderosos que siempre gana y se ríe del resto del otro una mayoría del 99% que sufre distintos grados de privación Cuanto ilumina y cuanto confunde esta definición aritmética de la desigualdad Cuanto ayuda a la hora de trazar diagnósticos e implementar políticas Bastar a con quitar sus privilegios a ese 1% y estaramos en una sociedad equitativa

Documentar las ventajas de una minoría es un paso insoslayable para entender el problema Pero la denuncia moral y la vehemencia retórica contra el 1% chocan una y otra vez con la impotencia práctica y lo más importante terminan echando un manto de silencio sobre los mecanismos sociales que permiten acumular riqueza y acceder a las posiciones más codiciadas y

que están naturalizados en vastos sectores medios y medios altos Luego de años de investigar estos temas en la Argentina y América Latina Mariana Heredia propone entender y discutir las desigualdades contemporáneas desmontando las etiquetas que impiden pensarlas Así muestra que los ricos de hoy poco tienen que ver con las familias tradicionales la oligarquía o la burguesía nacional y que constituyen un grupo heterogéneo no siempre blindado ante la inestabilidad Atenta a los resortes que permiten reproducir el capital acceder al bienestar y ejercer poder analiza cómo las reformas desregulatorias de los años setenta y noventa achicaron los márgenes del Estado nacional como gran integrador social y mercantilizaron bienes que eran públicos como la salud la educación la seguridad Y nos invita a poner en cuestión ciertos lugares comunes del debate que

expectativas depositar en la pujza distributiva entre empleadores y trabajadores Y en las políticas de ingresos Puede la búsqueda de equidad descansar en la movilización constante y la capacidad de bloqueo de los sectores populares más golpeados Se trata de aumentar gravámenes o de afinar los dispositivos para evitar la evasión Cuál es el poder relativo de la autoridad presidencial para delinejar intervenciones públicas que minimicen las injusticias La obsesión por los ricos sea en clave de

fascinación o de repudio activa sensibilidades pero no sirve para entender las causas profundas de la desigualdad Este libro es un aporte enormemente revelador para conocer los poderes y las impotencias de las élites políticas económicas y sociales y para imaginar cómo salir del callejón sin salida en el que estamos y avanzar hacia una sociedad más integrada
