Finding Eliza Larissa Behrendt, Fiona Foley, 2024-06-04 Aboriginal lawyer writer and filmmaker Larissa Behrendt has long been fascinated by the story of Eliza Fraser who was purportedly captured by the Butchulla people after she was shipwrecked on their island off the Queensland coast in 1836 In this deeply personal book Behrendt uses Eliza s tale as a starting point to interrogate how Aboriginal people and indigenous people of other countries have been portrayed in their colonisers stories Exploring works as diverse as Robinson Crusoe and Coonardoo Behrendt looks at the stereotypes embedded in these accounts including the assumption of

cannibalism and the myth of the noble savage Ultimately Finding Eliza shows how these stories not only reflect the values of their storytellers but also reinforce those values and how in Australia this has contributed to a complex racial divide

Revitalising Indigenous Languages

Marja-Liisa Olthuis, Suvi Kivelä, Tove Skutnabb-Kangas, 2013 This book offers a language revitalisation method that can be used with Indigenous and minority languages especially in cases where the native language has been lost among people of a working age It gives practical examples and a theoretical frame of reference for how to plan organise and implement an intensive language programme Antipodean Childhoods Helga Ramsey-Kurz, Ulla Ratheiser, 2020-05-15 Though obvious the productiveness of combining the three concepts of childhood otherness and the postcolonial has not inspired much academic inquiry so far The essays assembled in this book make up for this omission and address aspects of growing up in Australia and New Zealand from various angles They base their argument on the premise that whether in settler migrant or indigenous communities children tend to be ascribed a space of their own mostly outside but never independent of that of adults How adults configure this space both practically and imaginatively for instance in the arts in adult and children s literature in film and photography or in historical documents is one of the questions answered in the process How these configurations have developed with time and under the influence of specific historical circumstances is another Thus the individual papers are more than a contribution to the current re discovery of the theme of childhood in European cultures in that Antipodean Childhoods remains centrally concerned with the cultural specificity of childhoods lived in Australia and New Zealand and with the theoretical relevance of this specificity to postcolonial literary cultural and historical studies

Language and Minority Rights Stephen May,2013-06-17 The second edition addresses new theoretical and empirical developments since its initial publication including the burgeoning influence of globalization and the relentless rise of English as the current world language May s broad position however remains largely unchanged He argues that the causes of many of the language based conflicts in the world today still lie with the nation state and its preoccupation with establishing a common language and culture via mass education The solution he suggests is to rethink nation states in more culturally and linguistically plural ways while avoiding at the same time essentializing the language identity link This edition like the first adopts a wide interdisciplinary framework drawing on sociolinguistics applied linguistics sociology political theory education and law It also includes new discussions of cosmopolitanism globalization the role of English and language and mobility highlighting the ongoing difficulties faced by minority language speakers in the world today

The Future of Tradition Leon Shaskolsky Sheleff,2013-09-05 Recent years have seen an increased interest in the variety of cultures co existing within one state and a growing acknowledgement of the values ensconced in pluralistic social structures this book examines the manner in which indigenous people can function in modern states preserving their traditional customs while simultaneously adapting aspects of their culture to the challenges posed by modern life Whereas it was formerly assumed that these tribal frameworks were doomed to extinction and some states even encouraged such a process there has been a revival in their vitality linked to a recognition of their rights The book offers a comprehensive survey of various aspects of tribal life focusing on political issues such as the meaning of sovereignty legal issues dealing with the role of custom and social issues concerned with sustaining communal life A focused study is made of a whole series of legal factors relating to possession and ownership of land religious rites the nature of polygamous marriages the assertion of group rites the manner of peacefully resolving disputes and allied questions Recent judicial decisions are analysed as a reflection of the far reaching changes that have taken place in a process that has seen the former disregard of basic rights of indigenous people being replaced by an awareness of the injustices perpetrated in the past and a willingness to seek to redress them The comparison between approaches of different English speaking countries provides an account of interwoven developments
