**Framing a Lost City** Amy Cox Hall, 2017-11-22 An engaging study of Machu Picchu's transformation from ruin to World Heritage site and the role a National Geographic photo feature played Latin American Research Review When Hiram Bingham a historian from Yale University first saw Machu Picchu in 1911 it was a ruin obscured by overgrowth whose terraces were farmed by a few families A century later Machu Picchu is a UNESCO World Heritage site visited by more than a million tourists annually This remarkable transformation began with the photographs that accompanied Bingham's article were published in National Geographic magazine which depicted Machu Picchu as a lost city discovered Focusing on the practices technologies and materializations of Bingham's three expeditions to Peru in the first decade of the twentieth century this book makes a convincing case that visualization particularly through the camera played a decisive role in positioning Machu Picchu as both a scientific discovery and a Peruvian heritage site Amy Cox Hall argues that while Bingham's expeditions relied on the labor knowledge and support of Peruvian elites intellectuals and peasants the practice of scientific witnessing and photography specifically converted Machu Picchu into a cultural artifact fashioned from a distinct way of seeing Drawing on science and technology studies she situates letter writing artifact collecting and photography as important expeditionary practices that helped shape the way we understand Machu Picchu today Cox Hall also demonstrates that the photographic evidence was

**Gold** Iain McCalman, Alexander Cook, Andrew Reeves, 2001-03-12 Throughout history, gold has been the stuff of legends, fortunes, conflict, and change. The discovery of gold in Australia 150 years ago precipitated enormous developments in the newly settled land. The population and economy boomed, and spontaneous cities emerged. The effects on both the environment and indigenous Aboriginal peoples have been profound and lasting. In this book, a team of prominent historians and curators have collaborated to produce an innovative cultural history of gold and its impact on the development of Australian society.

**Making Machu Picchu** Mark Rice, 2018-08-17 Speaking at a 1913 National Geographic Society gala, Hiram Bingham III, the American explorer celebrated for finding the lost city of the Andes two years earlier, suggested that Machu Picchu is an awful name, but it is well worth remembering. Millions of travelers have since followed Bingham's advice. When Bingham first encountered Machu Picchu, the site was an obscure ruin. Now designated a UNESCO World Heritage Site, Machu Picchu is the focus of Peru's tourism economy. Mark Rice's history of Machu Picchu in the twentieth century, from its discovery to today's travel boom, reveals how Machu Picchu was transformed into both a global travel destination and a powerful symbol of the Peruvian nation. Rice shows how the growth of tourism at Machu Picchu swayed Peruvian leaders to celebrate Andean culture as compatible with their vision of a modernizing nation. Encompassing debates about nationalism, indigenous peoples,

experiences and cultural policy as well as development and globalization the book explores the contradictions and ironies of Machu Picchu's transformation On a broader level it calls attention to the importance of tourism in the creation of national identity in Peru and Latin America as a whole
