Lost Mines and Buried Treasures of the West Thomas Probert, 1977 This large easy to use volume lists the works of more than eleven hundred different authors covering thousands of stories of lost mines and buried treasures supposedly located in fifteen Western and Southwestern states and in Mexico In addition to being a boon to those adventurers who are tempted to search for lost mines and buried treasures it will be an important basic research tool for historians geologists geographers anthropologists archaeologists and folklorists and it will be useful in identifying the man treasure hoards and mining claims all the way from the Lost Adams Diggings in Arizona to the Stagecoach in Wyoming The information given in this important bibliography was acquired through perusal of an unusually large number of books newspapers magazines unpublished manuscripts deposits in private and public libraries holdings of various historical foundations and governmental records and archives The task took Mr Probert three full years of steady patient work Many of these stories of lost mines and buried treasures have resulted in the discovery of some that are rarely acknowledged largely because as Mr Probert points out those who have been so fortunate as to find the pot of gold at the end of the rainbow have deemed it wiser and much safer to keep their own counsel

E. S. LeGaye,1973 *Formation Processes of Maritime Archaeological Landscapes* Alicia Caporaso,2017-01-05 Research into the anthropogenic and taphonomic processes that affect the formation of maritime

archaeological resources has grown significantly over the last decade in both theory and the analysis of specific sites and associated material culture. The addition of interdisciplinary inquiry, investigative techniques and analytical modeling from fields such as engineering, oceanography and marine biology have increased our ability to trace the unique pathways through which archaeological sites progress from initial deposition to the present yet can also link individual sites into an integrated socio-environmental maritime landscape. This edited volume presents a global perspective of current research in maritime archaeological landscape formation processes. In addition to classically considered submerged material culture and geography or those that can be accessed by traditional underwater methodology, case studies include less often considered sites and landscapes. These landscapes, for example, require archaeologists to use geophysical marine survey equipment to characterize extensive areas of the seafloor or go above the surface to access maritime archaeological resources that have received less scholarly attention. Oregon Myths and Legends Jim Yuskavitch, 2017-04-13 From the mysterious disappearance of hijacker D.B. Cooper to persistent rumors of Bigfoot, this selection of thirteen stories from Oregon's past explores some of the Beaver State's most compelling mysteries and debunks some of its most famous myths. Read about the mysterious disappearances of several people over the years around Mount Emily, relive the gruesome discovery of three murdered trappers near the Deschutes River, and learn why many people believe an eleven-ton meteorite might be hidden in the mountains of southwestern Oregon.

The Sagebrush Curtain Melvin Adams, 2019-08-08 This book contains a diversity of natural and human stories about the southeast quarter of Oregon state, an area seemingly empty and barren to many people driving through it. This surprising view of the region features the botany, geology, wildlife, and history of the area wrapped in a memoir of the author's youth spent there. Born in the sagebrush community of Lakeview in 1941, the author moved on following high school graduation. But as with many native sons and daughters from out of the way places, the urge to return to his roots proved irresistible. I endeavored to write this collection about the Oregon desert because of my childhood there, says Adams, but also because it is a place of startling mystery, subdued danger, and beauty. *A Motif Index for Lost Mines and Treasures Applied to Redaction of Arizona Legends, and to Lost Mine and Treasure Legends Exterior to Arizona* Byrd Howell Granger, 1977 *Prehistory and History of the Rogue River National Forest* Jeffrey M. The Pirate Encyclopedia contains the most complete body of data available on the rovers, their rightful legitimacy as subjects of investigation. For the first time we see so many pirates—c. 7,000—brought together. This pirates' who's who, including the women pirates, makes it possible to see different areas and their significance and circumstances, and so the essential companion for scholars, students, and a general audience intrigued by tales and facts. **Mysterious America** Loren Coleman, 2007-04-24 Bestselling author and noted cryptozoologist Loren Coleman set out on the ultimate mission to uncover
