Lost Peace International Relations In Europe 1918 1939:

The lost peace international relations in Europe, 1918-1939 Anthony Adamthwaite, 1980 British Foreign Policy, 1919-1939 Paul W. Doerr, 1998-05-15 Provides students with a clear narrative overview of the period which will enable them to form critical opinions Introduces students to the historical controversies of the period and communicates the results of recent specialist studies to a student readership in an easily understood manner An accessible clearly written account accompanied by useful bibliography chronology tables and maps and written by an author teaching in the field **Christian Democracy in Europe Since 1945** Michael Gehler, Wolfram Kaiser, 2004-08-02 For the first time this book reveals the actual roles of the Christian Democratic CD parties in postwar Europe from a pan European perspective It shows how Christian Democratic parties became the dominant political force in postwar Western Europe and how the European People s Party is currently the largest group in the European Parliament CD parties and political leaders like Adenauer Schuman and De Gasperi played a particularly important role in the evolution of the core Europe of the EEC EC after 1945 Key chapters address the same questions about the parties membership and social organization their economic and social policies and their European and international policies during the Cold War The book also includes two survey chapters setting out the international political context for CD parties and comparing their postwar development and two chapters on their transnational party cooperation after 1945 This is the companion volume to Political Catholicism in Europe 1918 1945 A History of Eastern Europe 1918 to the Present Ian D. Armour, 2021-04-08 Why is Eastern Europe still different from Western Europe more than a quarter century after the collapse of Communism A History of Eastern Europe 1918 to the Present shows how the roots of this difference are based in Eastern Europe s tortured 20th century Eastern Europe emerged in 1918 as the lands between new states whose weakness vis vis Germany and Soviet Russia soon became obvious The region was the main killing field of the Second World War which visited unimaginable horrors on its inhabitants before their liberation by the Soviets in 1945 The imposition of Communist dictatorships on the region ironically only deepened Eastern Europe s backwardness Even in the post Communist period its problems continue to make it a fertile breeding ground for nationalism and political extremism A History of Eastern Europe 1918 to the Present explores the comparative backwardness of Eastern Europe and how this has driven strategies of modernisation it looks at the ways in which the region has served as a giant test tube for political experimentation and in particular at the enduring strength of nationalism which since 1989 has re emerged more virulent than ever This book is the essential textbook for any student of 20th century Eastern Europe **Germany and Europe 1919-1939** John Hiden, 2014-09-25 This is the only short study in English to survey Germany s foreign policy from a German viewpoint across the entire inter war period The approach which sets Germany in her full European context is not narrowly diplomatic and it gives as much attention to the Weimar years of the 1920s as it gives to the more familiar story of Germany s international relations under the Third Reich John Hiden has now thoroughly revised his text to take account of

new scholarship since the book first appeared in 1977 Grandeur And Misery Anthony Adamthwaite, 2014-03-04 A central question in European history is how did a great power pre eminent in 1918 lie defeated by the same enemy less than 20 years later Until recently the explanation has been sought in fundamental weaknesses that could only leave the French of 1940 hamstrung and demoralized Recent studies have challenged that view and now for the first time the revisionist approach is displayed in a single volume both summarizing the research of others and drawing on the author s own work in the archives The book is about as far from dry as dust diplomatic history as it s possible to get Its very readable and the author manages to show with the telling anecdote that even a serious subject has its comic side that for instance the French High Command kept forces stationed in the Alps for seven years because no one in the foreign service had thought to pass on news about a secret treaty between Italy and France in 1902 or that after a particularly stressful meeting Andrew Bonar Law the British prime minister mouth to Poincar the French president through the closed carriage window of his train and you go to hell all the while smiling and exuding affability Such episodes are not the substance of the book but they oil its progress

Britain and Central Europe, 1918-1933 Gábor Bátonyi, 1999-04-01 This book emphasizes the key role played by Britain in restoring peace and stability in central Europe after the First World War It focuses on the endeavours of British diplomats in the 1920s to promote political integration and economic co operation in the Danubia region The work traces the gradual shift in British attitudes towards the small central European states from one of active engagement to disinterest and even hostility Three case studies of British foreign policy in Vienna Budapest and Prague support the novel thesis that British involvement in central European affairs was terminated as a result of Austrian Hungarian and Czechoslovakian unwillingness to co operate and not simply because of economic and political pressures from Germany The Flight of International Capital

Brendan Brown, 2017-11-30 Originally published in 1987 The Flight of International Capital provides a fascinating comprehensive analysis of the history of international money movements Taking 1931 as the turning point between old style and modern methods of conducting monetary affairs the book relates currency shifts and investment trends to political events He deals with five eras in the history of international capital the unsettled post crash period 1931 1936 the flight of capital to the US before World War II the dollar and Swiss Franc s time as the only hard monies till the late fifties the emergence of the mark dollar axis before 1971 and finally the behaviour of floating currencies Jeremiah Smith, jr. and

Hungary, 1924-1926 Zoltán Peterecz, 2013-01-01 Zolt n Peterecz presents in this monograph the personality and work of Jeremiah Smith Jr 1870 1935 the League of Nations Commissioner General for the 1924 loan to Hungary He deals also in extenso with the economic and political problems associated with the financial reconstruction of Hungary both on the domestic and international scene Publisher s description Humanity's Soldier David Chuter, 1996 A study detailing the historical cultural and philosophical origins of French security policy since 1919 Chuter Ministry of Defence London explains how and why security policy has developed since that time arguing that the origins of current policy lie even further back in

history and through a cultural network of myths and symbolisms continues to influence how the French perceive contemporary events often to the bewilderment of Anglo Saxon countries with a vastly different set of experiences
