Love And Benjamins:

Benjamin's Ghosts Gerhard Richter, 2002 This book explores the implications for today's critical concerns of the work of Walter Benjamin 1892-1940 one of the most powerful and influential thinkers of the 20th century A Companion to the Works of Walter Benjamin Rolf J. Goebel, 2009 An advanced introduction to Benjamin's work and its actualization for our own times Walter Benjamin 1892-1940 has emerged as one of the leading cultural critics of the twentieth century His work encompasses aesthetics metaphysical language and narrative theories German literary history philosophies of history the intersection of Marxism and Messianic thought urban topography and the development of photography and film Benjamin defined the task of the critic as one that blasts endangered moments of the past out of the continuum of history so that they attain new significance This volume of new essays employs this principle of actualization as its methodological program in offering a new advanced introduction to Benjamin's own work The essays analyze Benjamin's central texts themes terminologies and genres in their original contexts while simultaneously situating them in new parameters such as contemporary media memory culture constructions of gender postcoloniality and theories of urban topographies The Companion brings together an international group of established and emerging scholars to explicate Benjamin's actuality from a multidisciplinary perspective Designed for audiences interested in literary criticism cultural studies and neighboring disciplines the volume serves as a stimulus for new debates about Benjamin's intellectual legacy today Contributors Wolfgang Iser Willi Bolle Dianne Chisholm Adrian Daub Dominik Finkelde Eric Jarosinski Lutz Koepnick Vivian Liska Karl Ivan Solibakke Marc de Wilde Bernd Witte Rolf J. Goebel is Distinguished Professor of German and Chair of the Department of World Languages and Cultures at the University of Alabama in Huntsville City and Modernity in Georg Simmel and Walter Benjamin Vincenzo Mele, 2023-01-12 This book reconstructs and compares the social theories of modernity of Georg Simmel and Walter Benjamin two classic thinkers in German social thought The author focuses on five main topics the historical sociological method through which they investigate modernity how are the concepts of history and society possible the consequences of modern metropolis on the construction of individual subjectivity the aestheticization of everyday life caused by the expansion of commodity culture and the female culture as a counter power to the domination of masculine objective culture In the decades since Simmel and Benjamin urban reality has undergone profound changes and we may even question the very existence of the subject of analysis what is the city the metropolis in today's context of globalization and capital flows Simmel's and Benjamin's metropolis has thus become an endless city beyond the physical and geographical confines of urban reality *Politics of Benjamin's Kafka: Philosophy as Renegade* Brendan Moran, 2018-06-05 This book provides a critical assessment of Benjamin's writings on Franz Kafka and of Benjamin's related writings Eliciting from Benjamin's writings a conception of philosophy that is political in its dissociation from its becoming renegade in relation to its philosophic shame about established laws norms and forms the book compares Benjamin's writings with relevant works by

Agamben Heidegger Levinas and others In relating Benjamin's writings on Kafka to Benjamin's writings on politics the study delineates a philosophic impetus in literature and argues that this impetus has potential political consequences Finally the book is critical of Benjamin's messianism insofar as it is oriented by the anticipated elimination of exceptions and distractions Exceptions and distractions are the book argues precisely what literature like other arts brings to the fore Hence the philosophic and the political importance of literature

Love and Russian Literature Ira Nadel, 2023-11-30 Russia haunted the British cultural imagination throughout the 20th century whether as a romantic source of literary and political inspiration or as a warning of creeping totalitarianism In this new book Ira Nadel charts the story of that influence through the work of some of the key figures in British literature across the century including Joseph Conrad Somerset Maugham Jane Harrison Virginia Woolf and H G Wells Framed by the story of two romantic encounters between Walter Benjamin and the actress Asja Lacis in Moscow in 1926 and between Isaiah Berlin and Anna Akhmatova in 1945 *Love and Russian Literature* casts a vivid new light on the ways in which responses to Russia shaped the history of British modernism

A Thousand Benjamins Michael Kun, 2006-09-15 After twenty years of marriage Mary Jude has had enough of Benjamin A thousand Benjamins couldn't make me happy she says Lost in the monotony of daily life and the undertow of memories Benjamin meets Kim a woman eighteen years his junior who bears a sadness in her green eyes that is connected to a scar that runs from the base of her throat to her ribs Slowly Benjamin and Kim who for entirely different reasons believe themselves beyond repair begin to admit that this might actually be the time of their lives

Love's Shadow Paul A. Bové, 2021-01-12 It is no wonder literary criticism is so sullen It is too philosophical too much indebted to the dour Walter Benjamin wedded to aestheticized helplessness Lit crit needs new inspirations the sober cheer of Wallace Stevens the loving eye of Rembrandt romance melodrama and wit Let there be more poetry Paul Bové says and less cynicism

Shelley with Benjamin Mathelinda Nabugodi, 2023-01-23 Yet what surprises me most of all at this time is that what I have written consists as it were almost entirely of quotations Compositions so produced are to poetry what mosaic is to painting It is the craziest mosaic technique you can imagine and the very mind which directs the hands in formation is incapable of accounting to itself for the origin the gradations or the media of the process *Shelley with Benjamin* A critical mosaic is an experiment in comparative reading Born a century apart Percy Bysshe Shelley and Walter Benjamin are separated by time language temperament and genre one a Romantic poet known for his revolutionary politics and delicate lyricism the other a melancholy intellectual who pioneered a dialectical method of thinking in constellations Yet as the above montage of citations from their works demonstrates their ideas are mutually illuminating the mosaic is but one of several images that both use to describe how literature lives on through practices of citation translation and critical commentary In a series of close readings that are by turns playful erotic and violent Mathelinda Nabugodi unveils affinities between two writers whose works are simultaneously interventions in literary history and blueprints for an emancipated future In addition to offering fresh interpretations of both major and minor

writings she elucidates the personal and ethical stakes of literary criticism Throughout the book marginal annotations and interlinear interruptions disrupt the faux objective and colourblind stance of standard academic prose in an attempt to reckon with the barbarism of our past and its legacy in the present The book will appeal to readers of Shelley and Benjamin as well as those with an interest in comparative literature literary theory romantic poetics and creative critical writing

Walter Benjamin and Theology Colby Dickinson, Stéphane Symons, 2016-05-19 In the Arcades Project Walter Benjamin writes that his work is related to theology as blotting pad is related to ink It is saturated with it For a thinker so decisive to critical literary cultural political and aesthetic writings over the past half century Benjamin's relationship to theological matters has been less observed than it should even despite a variety of attempts over the last four decades to illuminate the theological elements latent within his eclectic and occasional writings Such attempts though undeniably crucial to comprehending his thought remain in need of deepened systematic analysis In bringing together some of the most renowned experts from both sides of the Atlantic *Walter Benjamin and Theology* seeks to establish a new site from which to address both the issue of Benjamin's relationship with theology and all the crucial aspects that Benjamin himself grappled with when addressing the field and operations of theological inquiry

Diagrams of Power in Benjamin and Foucault Mark Laurence Jackson, 2022-09-04 This book's overarching premise is that discussion and critique in the discourses of architecture and urbanism have their primary focus on engagements with form particularly in the sense of the question as to what planning and architecture signify with respect to the forms they take and how their meanings or content what is contained is considered in relation to form as container While significant critical work in these disciplines has been published over the past 20 years that engages pertinently with the writings of Walter Benjamin and Michel Foucault there has been no address to the co incidence in the work of Benjamin and Foucault of an architectural figure that is pivotal to each of their discussions of the emergence of modernity The arcade for Benjamin and the panoptic prison for Foucault have a parallel role In Foucault's terms panopticism is a diagram of power The parallel for Benjamin would be his understanding of constellation In more recent architectural writings the notion of the diagram has emerged as a key motif Yet and in as much as it supposedly relates to aspects of the work of Foucault along with Gilles Deleuze this notion of diagram amounts for the most part to a thinly veiled reinstatement of geometry as idea This book redresses the emphasis given to form within the cultural philosophy of modernity and particularly with respect to architecture and urbanism inflects on the agency of force that opens a reading of their productive capacities as technologies of power It is relevant to students and scholars in poststructuralist critical theory architecture and urban studies This is a book about Foucault and Benjamin and it is grounded in a deep knowledge of and reflection upon their works but it is also underpinned by an impressive erudition There are reflections on Hegel and Heidegger central to the author and Derrida along with Kierkegaard and others This leads to a rich and suggestive discussion in staging a spatial architectural political conversation between Foucault and Benjamin Anonymous Reviewer

Mark Jackson's *Diagrams of Power in Benjamin and Foucault: The Recluse of Architecture* juxtaposes and interrogates its two leading actors so as to draw from and through them a theory of architecture which is inseparable from its recluse. In doing so it elaborates a series of complex connections with their various interlocutors and inspirations: Hegel, Heidegger, Derrida, the Kabbalah, Agamben, allegory, Marx, Deleuze, Klossowski, tragedy, capitalism, modernity, and so on. The list is long and impressive. This is not only done with an extremely high degree of scholarship but is presented in a light, lucid, and very compelling manner in a voice both personal and authoritative. The recluse is the figure of mimesis itself, the appearance of a withdrawal always already a ruin. This book not only contributes a highly astute reading of its philosophical objects but it enacts the ontology of the recluse through its own unfolding, simultaneously revealing and withholding the meaning of architecture as such so that we not only understand its meaning but feel the pulsing differential of the book's object as if it were alive within us. Stephen Zepke, Independent Researcher, Vienna.

A Love Restored Kelly Goshorn, 2018-06-06. With pert opinions and a less than perfect figure, Ruth Ann Sutton doesn't measure up to Society's vision of a perfect lady. When she accepts a position teaching in a Freedman's School, it threatens the only marriage offer Ruth Ann is likely to receive. She's forced to choose between life as a lonely spinster or reinventing herself to secure a respectable proposal. Determined to rise above his meager beginnings, Benjamin Coulter's reputation as a fast learner and hard worker earns him the opportunity to apprentice with a surveyor for the railroad, a position that will garner the respect he craves. After a chance encounter with Ruth Ann Sutton, Benjamin is smitten with her pretty face, quick wit, and feisty personality. When others ridicule his choice, will Benjamin listen to his heart or put ambition first?

The Bonds of Love, Revisited Eyal Rozmarin, 2016-03-17. Jessica Benjamin is one of the most important and influential psychoanalysts of the last 4 decades. She is one of the founders of relational psychoanalysis, a movement that has by now expanded over the globe and was also one of the first to introduce feminism and gender studies into psychoanalytic thought. Jessica Benjamin is the most known and quoted representative of these two movements within world psychoanalysis and beyond in philosophy, gender, women's studies, and cultural studies departments everywhere. The publication of her book *Bonds of Love* (1989) was nothing short of a revolution. Psychoanalysis was until then a field immune to a changing world, to the unrest of the 60s, to the feminist and queer liberation movements, to the new philosophies of the Frankfurt School in Germany, and post-structuralism in France. The book was a game changer. It called psychoanalysis to doubt its most basic premises on the human condition. It read Freud through a feminist framework and through Hegel, forever tipping our perspective on infancy, gender, and the interplay of power and dependence that drives human relationships from the start. This volume marks the 25th anniversary of Benjamin's work. Pulling together 15 international scholars, it looks back on the book's first impact as well as on its continued relevance to psychoanalysis and gender studies today. Chapters offer theoretical deliberations and elaborations of the book's original themes as well as reflecting on it from more intimate angles as a source of personal and professional inspiration for feminists and clinicians around the world. This book was originally

published as a special issue of Studies in Gender and Sexuality

Walter Benjamin's Concept of the Image Alison

Ross, 2014-10-10 In this book, Alison Ross engages in a detailed study of Walter Benjamin's concept of the image, exploring the significant shifts in Benjamin's approach to the topic over the course of his career. Using Kant's treatment of the topic of sensuous form in his aesthetics as a comparative reference, Ross argues that Benjamin's thinking on the image undergoes a major shift between his 1924 essay on Goethe's Elective Affinities and his work on The Arcades Project from 1927 up until his death in 1940. The two periods of Benjamin's writing share a conception of the image as a potent sensuous force able to provide a frame of existential meaning. In the earlier period, this function attracts Benjamin's critical attention, whereas in the later, he mobilises it for revolutionary outcomes. The book gives a critical treatment of the shifting assumptions in Benjamin's writing about the image that warrant this altered view. It draws on hermeneutic studies of meaning scholarship in the history of religions and key texts from the modern history of aesthetics to track the reversals and contradictions in the meaning functions that Benjamin attaches to the image in the different periods of his thinking. Above all, it shows the relevance of a

critical consideration of Benjamin's writing on the image for scholarship in visual culture critical theory aesthetics and philosophy more broadly

Homo

Temporalis Nitzan Itzhak Lebovic, 2025-01-15 *Homo Temporalis* focuses on the importance of temporal concepts for four German Jewish thinkers who profoundly shaped twentieth century intellectual history: Martin Buber, Walter Benjamin, Hannah Arendt, and Paul Celan. By analyzing the concept of time, Nitzan Lebovic explores Buber's stress on the temporality of the dialogue between I and Thou, Benjamin's 'now time' and dialectics in 'standstill', Arendt's understanding of democracy as natality or a permanent revolution, and the 'breathturn' that informs Celan's poetry. Framing the reception of German Jewish thinking in the second half of the twentieth century as a parallel story to the rise of the modern humanities, *Homo Temporalis* also highlights how these foundational temporal concepts illuminate the causes of the present crisis in the humanities and its disciplinary limitations in the age of biopolitics and the Anthropocene.
