Is your lover touchy-feely? Or do they love with their mind and intellect? Some Moon signs revel in closeness and feel empowered by it. While others require space and distance through which to evaluate the meaning or usefulness of intimacy in their lives. Each Moon sign speaks its own special emotional language. And for those of you who are willing to go that extra mile to learn those intricate little details to make your love stronger over the long run, this book may hold some important keys for you to discover.
