Love Is Relationships Paperback:

Love Is a Story Robert J. Sternberg, 1999-06-03 In this groundbreaking work Robert Sternberg opens the book of love and shows you how to discover your own story and how to read your relationships in a whole new light What draws us so strongly to some people and repels us from others What makes some relationships work so smoothly and others burst into flames Sternberg gives us new answers to these questions by showing that the kind of relationship we create depends on the kind of love stories we carry inside us Drawing on extensive research and fascinating examples of real couples Sternberg identifies 26 types of love story including the fantasy story the business story the collector story the horror story and many others each with its distinctive advantages and pitfalls and many of which are clashingly incompatible These are the largely unconscious preconceptions that guide our romantic choices and it is only by becoming aware of the kind of story we have about love that we gain the freedom to create more fulfilling and lasting relationships As long as we remain oblivious to the role our stories play we are likely to repeat the same mistakes again and again But the enlivening good news this book brings us is that though our stories drive us we can revise them and learn to choose partners whose stories are more compatible with our own Quizzes in each chapter help you to see which stories you identify with most strongly and which apply to your partner Are you a traveler a gardener a teacher or something else entirely Love is a Story shows you how to find out [The Truth About Love](#) Patricia Love, 2001-06-05 Offering a revelatory new perspective on loving relationships the author of Hot Monogamy guides readers through the natural stages of love high and low and shows how not to break up before the breakthrough

The Nature of Love and Relationships Tom Omid, Tom Omid Ph D, 2011-11-01 Description The Nature of Love and Relationships studies the fast deteriorating situation of relationships in modern societies with the objective of finding practical solutions It is a comprehensive book about man woman relationships that is developed based on scientific facts but written in a simple language for the general public Contrary to the present approach to address the symptoms of relationship conflicts this book explores the deep rooted problems of relationships as a pandemic It is written for the understanding of the general public although the discussions are based on scientific methodologies and analyses The table of content and preliminary pages of this book show the main theme and the structure of the book Every chapter contains many innovative and educational ideas about relationships while couples limitations to relate are explained in great detail In a nutshell the book studies the main issues of relationships in an easy to understand scientific structure To reverse the frightening trends in relationships radical changes are needed in terms of both people's mindset and social mechanisms This book is the product of the author's research expertise and efforts to save his own marriage during the last fifteen years The book contains around 135 000 words and over thirty five simple diagrams and tables Synopsis Over the last few decades we have developed wrong perceptions about the nature of love and the purpose of relationships With drastic changes in social values and lifestyles our expectations from relationships have skyrocketed in line with our escalating personal aspirations But all these idealistic needs have only led to more distress for everybody The rising divorce rate and endless family conflicts reflect the hectic environment of relationships These facts also reveal that our present methods of dealing with relationship hurdles have failed While focusing on the symptoms of relationship failures we have ignored the roots of the problems as a social pandemic So it is time now to analyse the real sources of problems and face up to the high complexity of relationships in new societies It appears that we need radical solutions compatible with our new social values and expanding personal needs A main goal of this book is to help couples review their mentality about the capacity and purpose of relationships Another objective is to suggest a framework that can assist couples assess their relationships more realistically Too many relationships are ruined nowadays due to partners biased judgments and hasty decisions The ultimate goal of this book is to bring objectivity back into relationships At the very least it is time to appreciate the need for viewing relationships in a new light consistent with the characteristics of new lifestyles Instead of searching all our lives for a soul mate and an ideal relationship we must find a way to relate more effectively while strengthening our identity and individualism too Love man woman relationship personality conflicts and factors gender differences relationship needs and models compatibility
