masculinity in a violent sex gender system is inseparably linked to economic and ethno national factors in the perpetuation of war

*An Encyclopedia of American Women at War* Lisa . Tendrich Frank, 2013-01-17 A sweeping review of the role of women within the American military from the colonial period to the present day In America the achievements defeats and glory of war are traditionally ascribed to men Women however have been an integral part of our country's military history from the very beginning This unprecedented encyclopedia explores the accomplishments and actions of the fairer sex in the various conflicts in which the United States has fought An Encyclopedia of American Women at War From the Home Front to the Battlefields contains entries on all of the major themes organizations wars and biographies related to the history of women and the American military The book traces the evolution of their roles as leaders spies soldiers and nurses and illustrates women's participation in actions on the ground as well as in making the key decisions of developing conflicts From the

colonial conflicts with European powers to the current War on Terror coverage is comprehensive with material organized in an easy to use A Z ready reference format      *Sexing War/Policing Gender* Linda Åhäll,2015-02-11 Historically there has been reluctance from mainstream IR scholars as well as feminists to seriously engage with women s agency in warfare Instead scholarship has tended to focus on women s activism for peace or to ignore women s agency altogether This book rectifies this omission by exploring the cultural understanding of actors agents and structures of war and how can we make sense of attitudes towards women agency and war today By using a poststructuralist feminist perspective and by analysing empirical cases from a Western war on terror cultural context Ahall argues that all types of stories are informed by ideas about motherhood and maternal reproduction as the foundation of sexual difference This does not only mean that women are judged read valued based on the shape of their maternalised bodies rather than what they actually do but it means that ideas about motherhood not motherhood itself function to police contemporary gender norms and contemporary understandings of agency in war Overall this book argues that maternalist war stories function to reiterate traditional heteronormative gender roles This is how a body politics of war is not only policing gender norms but actually writing sex itself The body politics of war told through maternalist war stories is a process in which the sexing of war means the policing of gender borders with motherhood acting as the border agent This work will be of interest to students and scholars in areas such as gender political violence and international relations      *Women in the United States Military* Judith A. Bellafaire,2011-01-26 Women s participation in the U S Armed Forces has grown over time in response to the national need for their services Throughout each era of American history patriotic women volunteered to serve their country in a wide variety of official and unofficially sanctioned capacities When there was a call to duty the United States Armed Forces always relied upon women to be a part of the effort Women in the United States Military An Annotated Bibliography is the most complete and up to date listing of resources to help students and scholars understand the effect women have had on the wars that have shaped the United States Covering everything from the American Revolution to Operations in Iraq Women in the United States Military is essential for all academic and research libraries      *Waging Gendered Wars* Paige Whaley Eager,2016-02-24 Waging Gendered Wars examines through the analytical lens of feminist international relations theory how U S military women have impacted and been affected by the wars in Iraq and Afghanistan Although women were barred from serving formally in ground combat positions within the U S armed forces during both wars U S female soldiers are being killed in action By examining how U S military women s agency as soldiers veterans and casualties of war affect the planning and execution of war Whaley Eager assesses the ways in which the global world of international politics and warfare has become localized in the life and death narratives of female service personnel impacted by combat experience homelessness military sexual trauma PTSD and the deaths of fellow soldiers      **When Janey Comes Marching Home** Laura Browder,Sascha Pflaeging,2010-05-01 While women are officially barred from combat in the American armed services in the current war

where there are no front lines the ban on combat is virtually meaningless More than in any previous conflict in our history American women are engaging with the enemy suffering injuries and even sacrificing their lives in the line of duty When Janey Comes Marching Home juxtaposes forty eight photographs by Sascha Pflaeging with oral histories collected by Laura Browder to provide a dramatic portrait of women at war Women from all five branches of the military share their stories here stories that are by turns moving comic thought provoking and profound Seeing their faces in stunning color photographic portraits and reading what they have to say about loss comradeship conflict and hard choices will change the ways we think about women and war Serving in a combat zone is an all encompassing experience that is transformative life defining and difficult to leave behind By coming face to face with women veterans we who are outside that world can begin to get a sense of how the long wars in Iraq and Afghanistan have shaped their lives and how their stories may ripple out and influence the experiences of all American women The book accompanies a photography exhibit of the same name opening May 1 2010 at the Women in Military Service to America Memorial at Arlington National Cemetery and continuing to travel around the country through 2011

**The Hell of War Comes Home** Owen W. Gilman Jr.,2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II s literature and film Like few other books Gilman s volume studies these new texts among them Kevin Powers s debut novel *The Yellow Birds* and Phil Klay s short stories *Redeployment* along with the films *The Hurt Locker* *American Sniper* and *Billy Lynn s Long Halftime Walk* For perspective Gilman also looks at some touchstones from the Vietnam War Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding

**Gender, Nationalism, and War** Matthew Evangelista, 2011-02-24 Virginia Woolf famously wrote as a woman I have no country suggesting that women had little stake in defending countries where they are considered second class citizens and should instead be forces for peace Yet women have been perpetrators as well as victims of violence in nationalist conflicts This unique book generates insights into the role of gender in nationalist violence by examining feature films from a range of conflict zones In *The Battle of Algiers* female bombers destroy civilians while men dress in women s clothes to prevent the French army from capturing and torturing them *Prisoner of the Mountains* shows a Chechen girl falling in love with her Russian captive as his mother tries to rescue him Providing historical and political context to these and other films Matthew Evangelista identifies the key role that economic decline plays in threatening masculine identity and provoking the misogynistic violence that often accompanies nationalist wars *Ladies in Arms* Teresa Hiergeist, Stefanie Schäfer, 2024-03-04 In contemporary popular culture armed women take center stage but how can they be read from a feminist perspective How do films comics and TV series depict the newly fashionable gunwomen between objectification and feminist empowerment The contributions to this volume ask this question from different vantage points in cultural and literary studies film and visual culture studies history and art history They examine military and civic gun cultures the rediscovery of historical armed women and revolutionaries cultural phenomena such as gangsta rap narcocultura and US politics Bollywood and French cinema and distinct genres such as the graphic novel the romance novel or the German police procedural Tatort
