Wild Monterey Bay: Up Close and Personal: Stories of Memorable Wildlife Encounters
Jodi Frediani, Katlyn Taylor, 2024-10-25

Wild Monterey Bay is a collection of over 40 first person accounts in response to the question What is your most memorable wildlife encounter in Monterey Bay Read stories from people from all walks of life who have incredible stories about the rich wildlife and vast ecosystem that is Monterey Bay This book is a celebration of the bay and the people who interact with it About This Book Storytelling is human nature We started this project in 2016 with the hope that we could capture through personal stories the essence of what it s like for both people and wildlife in Monterey Bay Scientists have been studying this place for decades and people have written books about life on its shores Unless you combine the two the humans and the wildlife it s hard to get the full perspective of how amazing this place really is We interviewed forty people for this project from many different walks of life Some were just short term visitors and others have lived on the shores of Monterey Bay for generations Their stories involve at least twenty five different species from microscopic plankton to the largest animal to have ever lived on earth the blue whale We originally captured storytellers biographical information by asking them interview questions so their responses best reflect what was relevant to them at that time But forty people is a significant number to keep up with over the course of eight years A number of the stories also reference a specific timeline relevant to when the storytellers were interviewed To help provide context the dates of all interviews are listed on the top left of the story photo that begins each story Wild Monterey Bay is a celebration of wildlife and people Now we have finally turned these illustrated stories into a book for people to enjoy for years to come and we hope you will enjoy it Foreword by Carl Safina Praise for Wild Monterey Bay Connecting with wildlife is such an important way to build empathy for the natural world This is a delightful collection of stories about inspiring encounters with ocean life everything from bioluminescent plankton to great whales I hope it encourages everyone to get outdoors and explore for themselves Julie Packard Executive Director Monterey Bay Aquarium This is a treasure trove Gorgeous compelling photos illustrate pages brimming with stories of close encounters with creatures from white sharks to plankton all told in different voices and from different perspectives From the teacher watching city kids fall in love with the ocean to the biologist wrangling seals for tagging to the photographer documenting an orca teaching her baby to hunt all of these tales some funny some sad some quirky give you an intimate picture of Wild Monterey Bay you ll find nowhere else Whether you already live in this magical place or are only an armchair visitor this book will deepen your appreciation of this unique critical habitat and inspire you to protect what is surely one of the richest marine ecosystems on Earth Sy Montgomery Author of Soul of the Octopus and Secrets of the Octopus An inspiring exploration of the relationship between one of the world s most extraordinary marine environments and the people whose lives are deeply touched by it and who work to protect it LIZ

CUNNINGHAM Author of Ocean Country Human encounters with wildlife wake us up to the fact that we live in their world and these stories make that notion so real This is Monterey Bay at its most raw alive and deserving of its rightful protection Enjoy DAN HAIFLEY Retired Executive Director O Neill Sea Odyssey and Save Our Shores

CephInAction: Towards Future Challenges for Cephalopod Science Lindy Holden-Dye, Giovanna Ponte, Graziano Fiorito, A. Louise Allcock, Ryuta Nakajima, Erica A. G. Vidal, Tarla Rai Peterson, 2020-02-12 The last five years have been extremely challenging but also very innovative for cephalopod science and the outstanding tradition of biological contribution with cephalopod molluscs as key players in science and human activities and interests has continued This Research Topic is one of several dedicated to cephalopod molluscs e.g. Hanke and Osorio 2018 Ponte et al 2018 hosted by Frontiers over the last few years not to mention other papers published separately Highlighting of cephalopod science is important because it has much to offer not only the life science community but also more broadly the public perception of science and its understanding and relationship with scientific endeavour and cephalopods as living organisms and part of our everyday life at least for most of us This contribution illustrates the key needs that need to be overcome by the cephalopod research community i.e. rapid and effective mechanisms for exchange of knowledge and resources sharing of laboratory protocols videos tissues samples and data sets innovative approaches and initiatives in public engagement The cuttlefish comic included is an excellent example of a type of media that can be used to expand scientific knowledge to the public and human relationship with live animals There are strategic challenges in convincing globally distributed policy makers and funders of the relevance of cephalopods in scientific advances and also in the regulatory aspects since cephalopods are the only invertebrates whose use is regulated in Europe in a research context and this increases the need for integrated oversight and direction in terms of ethics and animal welfare e.g. Jacquet et al 2019a 2019b Ponte et al 2019 This Research Topic also aligns with the interests of the cephalopod community in stimulating public interest in cephalopods extending to a broader audience that could include chefs and gourmets and fishers and scientists aiming to develop sustainable food resources CephInAction Towards Future Challenges for Cephalopod Science Research Topic includes 14 papers from about 40 authors representing ten different countries thus overlapping with the original parties that contributed to the COST FA1301 that together with CephRes promoted and supported this editorial initiative
