Transnationalism, and Colonial India Babli Sinha,2013-07-18 Through the lens of cinema this book explores the ways in which the United States Britain and India impacted each other politically culturally and ideologically It argues that American films of the 1920s posited alternative notions of whiteness and the West to that of Britain which stood for democracy and social mobility even at a time of virulent racism The book examines the impact that the American cinema has on Indian filmmakers of the period who were integrating its conventions with indigenous artistic traditions to articulate an Indian modernity It considers the way American films in the 1920s presented an orientalist fantasy of Asia which occluded the harsh realities of anti Asian sentiment and legislation in the period as well as the exciting engagement of anti imperial activists who sought to use the United States as the base of a transnational network The book goes on to analyse the American empire films of the 1930s which adapted British narratives of empire to represent the United States as a new global paradigm Presenting close readings of films literature and art from the era the book engages cinema studies with theories of post colonialism and transnationalism and provides a novel approach to the study of Indian cinema Burnin' for You Jamie Lynn Miller,2014-04-11 Lucas Taylor is a New York City fireman at Station 127 dedicated to his job even though it has brought him heartrending tragedy the loss of his lover Ryan in an explosion Evan Singer is the new guy in town a paramedic transferred into Station 127 and he sets his eyes on Lucas from the get go Neither knowing who the other is their first meeting is a night
