Howard,2007-12-05 An overview of how esoteric brotherhoods have shaped history Examines the secret chronology and clandestine causes of seminal world events Shows how secret societies feed into one another and how they have worked together For thousands of years secret societies guardians of ancient esoteric wisdom have exercised a strong and often crucial influence on the destiny of nations Though largely ignored by orthodox historians the Freemasons Knights Templar and Rosicrucians affected the course of the French and American Revolutions as well as the overthrow of the medieval feudal order Inevitably the true ideals and esoteric practices of these societies have at times been perverted by self serving individuals The Nazis and the Bolsheviks British security forces the founding fathers of America and the Vatican have all justified their actions for good or for ill by claiming the mystic ideals of secret societies Michael Howard explores these connections tracing their effects in politics and statecraft from the time of ancient Egypt up to the present He sheds light on the influence of secret societies on governments and in the lives of many well known figures including Frederick the Great

John Dee Francis Bacon Benjamin Franklin Comte de Cagliostro Helena Blavatsky Rasputin and Woodrow Wilson He contends that the recent formation of the European Union was directed by an umbrella group of secret societies and reveals that though secret societies have been persecuted throughout history they have survived and continue to operate powerfully in world affairs today **A Special Illumination** Rollan McCleary, 2017-07-28 Gay spirituality represents a hidden strand in Western thought that was only publically declared from the Gay Liberation of the 1970s Since coming out expressions of gay spirituality have proliferated in both number and diversity Beginning with gay theology within Christianity the phenomenon has now reached as far as Buddhism and neo paganism But so far critical analysis of the movement has been very limited largely because gay spirituality has been treated as a political and social movement arguing for rights and acceptance within religious circles A Special Illumination offers an indepth analysis and argues that gay spirituality should be placed at the heart of religion *Where are the Dead?* Peter Moore, 2016-09-13 Where are the dead What are they doing What kind of a process is dying What relationships exist among the dead themselves and between the dead and those in the world they have left behind Modern philosophers argue that the idea of disembodied survival to which many believers pay lip service is incoherent and that there can be evidence neither for nor against something incoherent By contrast this book argues the idea of an embodied survival albeit a form of embodiment differing from our present embodiment makes perfect sense in itself and fits much better with the alleged evidence for post mortem survival Exploring post mortem survival *Where are the Dead* uses a variety of empirical data alongside mythological legendary and purely fictional material to illustrate how the less familiar idea of embodied post mortem survival might actually work in some real afterlife environment By asking questions about the nature and whereabouts of the afterlife and about what it might be like to be dead the book explores themes nowadays relatively neglected even in disciplines explicitly concerned with ideas about death dying and life after death
