Higher education is facing a perfect storm as it contends with changing demographics shrinking budgets and concerns about access and cost while underrepresented groups both in faculty ranks and students are voicing dissatisfaction with campus climate and demanding changes to structural inequities This book argues that to address the inexorable changes ahead colleges and universities need both to centralize the value of diversity and inclusion and employ a set of strategies that are enacted at all levels of their institutions It argues that individual and institutional change efforts can only be achieved by implementing diversity as a value that is embracing social change efforts as central and additive rather than episodic and required and provides the research and theoretical frameworks to support this approach as well as tools and examples of practice that accomplish change The contributors to this book identify the elements that drive successful multicultural initiatives and that strengthen the effectiveness of campus efforts to dismantle systemic oppression as well as the individual and organization skills needed to manage difference effectively Among these is developing the capacity of administrators faculty and student affairs professionals as conscious scholar practitioners to sensitively manage conflicts on campus deconstruct challenging structures and reconstruct the environment intentionally to include in respectful ways experiences of historically marginalized groups and non dominant ways of being in the world The books focus on developing capacities for multicultural competence aligns with higher education s increasing emphasis on civic engagement and institutional goals promote skills to

Tanacredi,Mark L. Botton,David Smith,2009-06-04 Horseshoe crabs those mysterious ancient mariners lured me into the sea as a child along the beaches of New Jersey Drawn to their shiny domed shells and spiked tails I could not resist picking them up turning them over and watching the wondrous mechanical movement of their glistening legs articulating with one another as smoothly as the inner working of a clock What was it like to be a horseshoe crab I wondered What did they eat Did they always move around together Why were some so large and others much smaller How old were they anyway What must it feel like to live underwater What else was out there down there in the cool green depths that gave rise to such intriguing creatures The only way to find out I reasoned would be to go into the ocean and see for myself and so I did and more than 60 years later I still do *Clinical Handbook of Couple Therapy, Fourth Edition* Alan S.
