Novel Beginnings Patricia Meyer Spacks,2008-10-01 In this study intended for general readers eminent critic Patricia Meyer Spacks provides a fresh engaging account of the early history of the English novel Novel Beginnings departs from the traditional narrow focus on the development of the realistic novel to emphasize the many kinds of experimentation that marked the genre in the eighteenth century before its conventions were firmly established in the nineteenth Treating well known works like Tom Jones and Tristram Shandy in conjunction with less familiar texts such as Sarah Fielding s The Cry a kind of hybrid novel and play and Jane Barker s A Patch Work Screen for the Ladies a novel of adventure replete with sentimental verse and numerous subnarratives the book evokes the excitement of a multifaceted and unpredictable process of growth and change Investigating fiction throughout the 1700s Spacks delineates the individuality of specific texts while suggesting connections among novels She sketches a wide range of forms and themes including Providential narratives psychological thrillers romans clef sentimental parables political allegories Gothic romances and many others These multiple narrative experiments show the impossibility of thinking of eighteenth century fiction simply as a precursor to the nineteenth century novel Spacks shows Instead the vast variety of engagements with the problems of creating fiction demonstrates that literary history by no means inexorable might have taken quite a different course **Research Trends in**
